

Additional file 10. Evaluation survey

Dear Trainees,

Congratulations on completing the 2025 CIHR-IGH Summer Institute on Sex and Gender+ Science!

This survey is an opportunity to submit your evaluation of the Summer Institute. Filling out the evaluation gives you an opportunity to reflect on your experiences during this five-day training: What have you learned? What parts of the training were most beneficial? How could the training program be improved?

The more detailed you are in your written evaluations, the more information we will have to refine future iterations of this and other training events in the future. Your input is crucial in the successful growth and improvement of training on topics of sex and gender+ science!

We intend to use evaluations as part of a publication on the development of the Summer Institute. You have the option to decide whether you want your responses to be included in research, or to be kept only for internal use by the event planning team. You can make this selection on the next page of the survey.

This survey does not collect any information that can be used to identify respondents. It takes approximately 15 minutes to complete.

Thank you for your participation.

Participation in Research

We intend to use evaluations as part of a publication on the development of the Summer Institute (i.e., referred to as 'research' since we intend to publish the paper).

You can decide whether you want your responses to be included in research, or to be kept only for internal use by the event planning team.

No identifiable information will be collected as part of the evaluation, regardless of your decision to give permission for your responses to be used for research purposes.

*** Do you give permission for your responses to be used for research purposes?**

If you do not want your responses to be used for research purposes, select No and click Next. You will be redirected to an exit page and given the opportunity to provide your program evaluations through a [separate survey link](#). Your responses will not be used for research purposes.
