ECS Diagnostic Medicine: Pre-ECG Workshops 2&3 Survey

Thank you for participating in this brand new series of ECG interpretation workshops.

This short survey is designed to assess your current knowledge and confidence in interpreting electrocardiograms (ECGs) **before** the next two sessions. The goal is to better understand how this workshop impacts learning outcomes and clinical confidence and will help us create more similar educational opportunities in the future!

You can still take this survey and attend the next two ECG workshops even if you did NOT attend the first ECG workshop on 15 October 2025.

Your responses are anonymous and will be used **solely for educational and program development purposes**.

Please answer all questions to the best of your ability — there are no grades or penalties.

This is a learning opportunity and should take less than 5 minutes to complete.

First and Last Name: *

Your answer

UCC Email: *

Your answer

Course of Study: *

- ☐ Graduate Entry Medicine
- ☐ Direct Entry Medicine
- ☐ Nursing/Midwifery
- ☐ Prehospital Medicine/Paramedicine
- ☐ Other

Year of Study: *

- ☐ 1
- ☐ 2
- ☐ 3
- ☐ 4
- ☐ 5

Did you attend the first ECG Workshop on 15 October 2025? *

- ☐ Yes
- ☐ No

Have you received any prior ECG interpretation training? (select all that apply) *

- ☐ Formal ECG course
- ☐ College lectures/Board exam preparation
- ☐ Online/self-directed learning (textbooks, videos, etc.)
- ☐ Previous ECG workshop (15 October 2025)

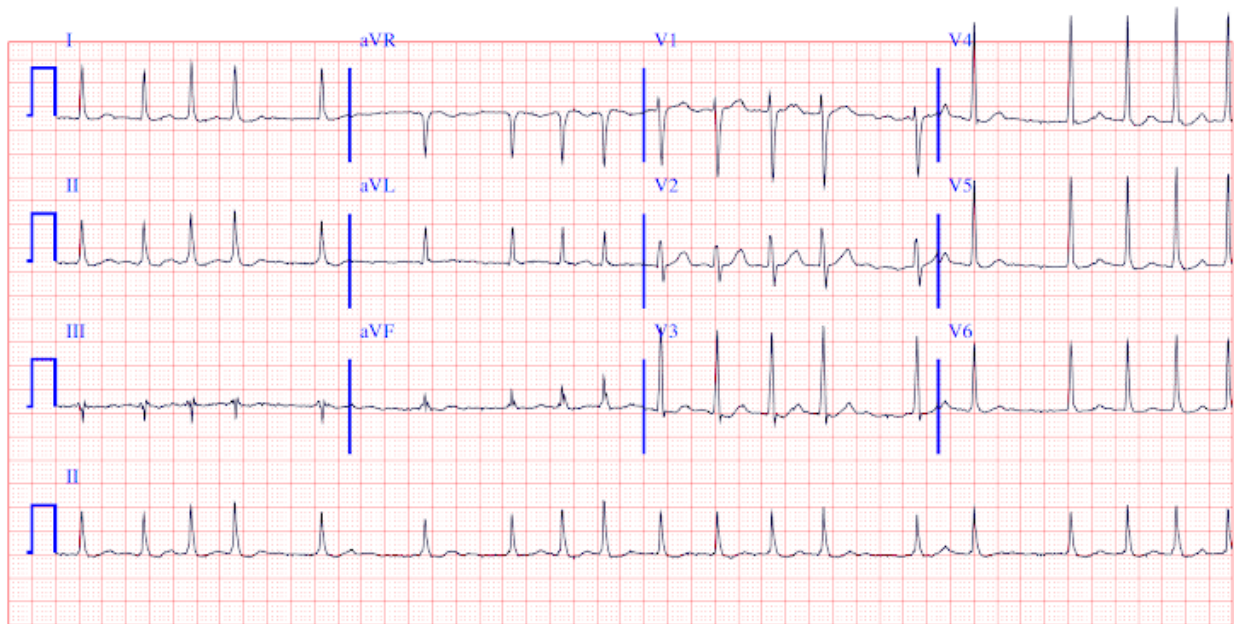

Have you had any work experience in a clinical setting involving ECGs? *
(e.g., paramedic, physician assistant, EMT, etc.)

- ☐ Yes
- ☐ No

Please try your best to answer the following 4 ECG questions WITHOUT using any resources (including chatGPT, books, videos, notes, etc.). This is to assess your pre-workshop knowledge.

Question 1: 74 year old man with a history of coronary artery disease and palpitations has the following ECG. What is the cardiac rhythm?

*

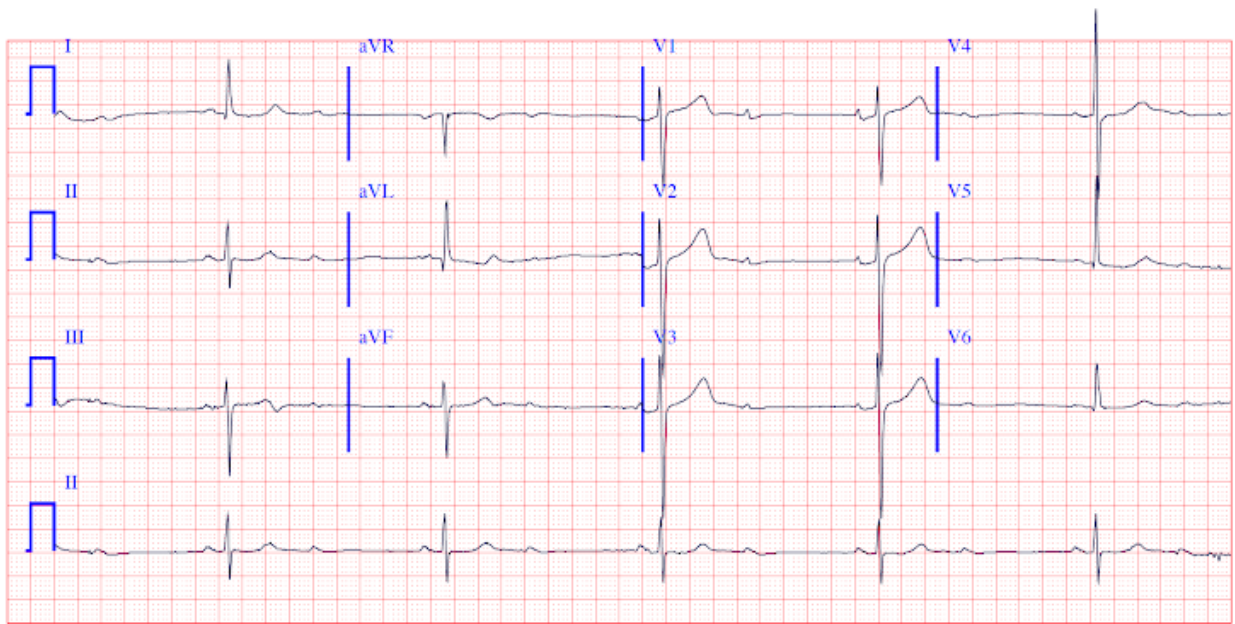

- ☐ Multifocal atrial tachycardia
- ☐ Atrial fibrillation
- ☐ Atrial flutter
- ☐ Sinus rhythm with frequent atrial premature beats
- ☐ Parkinsonism tremor artifact with sinus rhythm

Rate your confidence when answering Question 1: *

- ☐ 1 = not at all confident
- ☐ 2 = somewhat confident
- ☐ 3 = moderately confident
- ☐ 4 = confident
- ☐ 5 = very confident

Question 2: The following ECG is of an 85-year-old male without symptoms and on no pertinent cardiac medications. What is the rhythm here? *

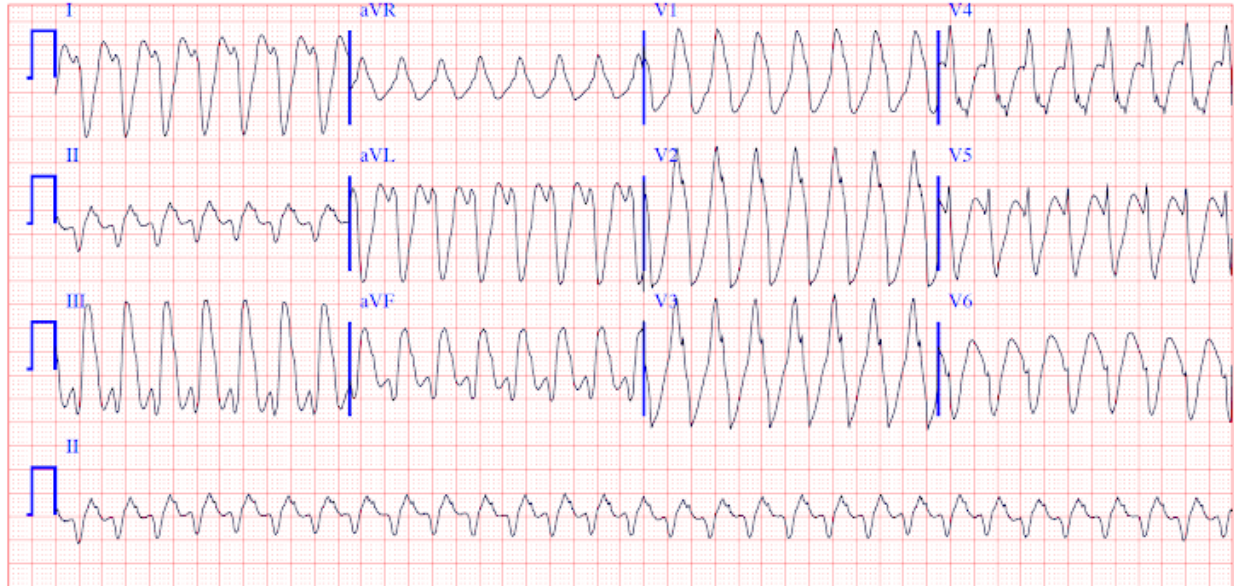

- ☐ Atrial tachycardia with AV block
- ☐ Sinus bradycardia (marked) consistent with sick sinus syndrome
- ☐ Sinus rhythm with 2:1 AV block
- ☐ Sinus rhythm with complete (third degree) AV block
- ☐ Sinus rhythm with 3:2 AV Wenckebach

Rate your confidence when answering Question 2: *

- ☐ 1 = not at all confident
- ☐ 2 = somewhat confident
- ☐ 3 = moderately confident
- ☐ 4 = confident
- ☐ 5 = very confident

Question 3: A 78 year-old man with a history of “heart attack” comes into the emergency department with complaints of palpitations and shortness of breath. What is the rhythm? Note: serum K⁺ was normal and he was not on any antiarrhythmic drugs. *

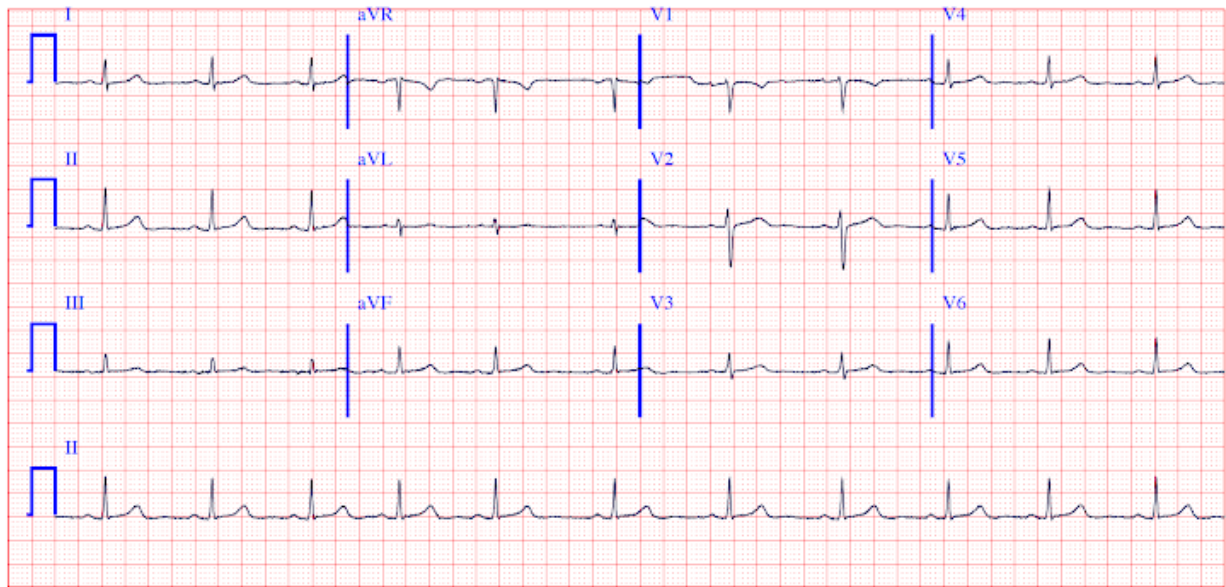

- ☐ Atrial tachycardia with Wolff-Parkinson-White pre-excitation
- ☐ Atrial tachycardia with right bundle branch block aberration
- ☐ Atrial flutter with right bundle branch block aberration
- ☐ Monomorphic ventricular tachycardia
- ☐ Sinus tachycardia with left bundle branch block aberration

Rate your confidence when answering Question 3: *

- ☐ 1 = not at all confident
- ☐ 2 = somewhat confident
- ☐ 3 = moderately confident
- ☐ 4 = confident
- ☐ 5 = very confident

Question 4: The following is the ECG of a 27 year-old female with variable pulse. *
What is the rhythm?

- ☐ Sinus rhythm with SA exit block
- ☐ Sinus rhythm with AV Wenckebach
- ☐ Physiologic (respiratory) sinus arrhythmia
- ☐ Ectopic atrial rhythm
- ☐ Sinus rhythm with a blocked premature atrial beat

Rate your confidence when answering Question 4: *

- ☐ 1 = not at all confident
- ☐ 2 = somewhat confident
- ☐ 3 = moderately confident
- ☐ 4 = confident
- ☐ 5 = very confident

How would you rate your overall confidence in interpreting ECGs at this stage? *

- ☐ 1 = not at all confident
- ☐ 2 = somewhat confident
- ☐ 3 = moderately confident
- ☐ 4 = confident
- ☐ 5 = very confident

A copy of your responses will be emailed to emergencycare@uccsocieties.ie.
