

ECS Diagnostic Medicine: Pre X-RAY Workshops Survey

Thank you for participating in this brand new series of X-Ray interpretation workshops.

This short survey is designed to assess your current knowledge and confidence in interpreting X-Rays **before** the next two sessions. The goal is to better understand how this workshop impacts learning outcomes and clinical confidence and will help us create more similar educational opportunities in the future!

Your responses are anonymous and will be used **solely for educational and program development purposes**.

Please answer all questions to the best of your ability — there are no grades or penalties.

This is a learning opportunity and should take less than 5 minutes to complete.
