

Textual Questions

We would also like to hear experiences **not** outlined in the above options.

1. Have you experienced or seen a microaggression, at a school or healthcare setting? This can be an experience you may not have previously categorised as a microaggression. Please describe your experience in a couple of sentences/ paragraph.

2. Moving forward, how will you change your behaviour and/or response with regards to microaggressions?

3. Now that you have more understanding of microaggression, we would like to know if you have been involved in an act of microaggression towards another person unintentionally. If so, could you please briefly explain the incident?
