

Appendix 1. Neurological Survey

Symptoms

- 1- Headaches
Headaches pre-Covid-19
Headaches post-Covid-19
- 2- Taste and Smell
Ageusia
Dysgeusia
Anosmia
Odor identification
Nasal congestion
- 3- Hearing, Vision and Eye Movements
Hypoacusia
Hyperacusia
Tinnitus
Amaurosis
Blinking lights
Visual acute
Photophobia
Blurry vision
Light adaptation
Distance adaptation
- 4- Motor disorders
Ataxic gait
Dizziness
Vertigo
Dysphagia
Paraparesis
Decreased muscle strength in lower limbs
Precise movements
Cramps
Myalgias
Fatigue
Sensitivity(Surface touch and Pain)
Paresthesia
- 5- Language, Memory, Consciousness and Sleep
Comprehensive aphasia
Syncope
Insomnia

Hypersomnia
Paresthesia

6- Autonomous Nervous System Disorders

Dysuria

Diarrhea

Neurogenic syncope

Xerostomia

Hyperhidrosis

Arrhythmia

Postural hypotension

Hypertensive episodes
