RE: Research titled, *Development and feasibility of a theory-driven multidomain intervention for community-dwelling older adults with mild cognitive impairment: a quasi-experimental pilot study based on the Multi-Theory Model*.

Authors: Rui Ren, Xiaoxiao Wei, Yuxin Han, Qing Wang, Shaoting Sheng, Ke Liu, Lijun Wei, Ling Sha, Xiaomin Zhang

Dear Rui Ren and Dr. Qing Wang:

This letter is to confirm receipt of payment for your unauthorized use of an unauthorized version of the Chinese MMSE in the research study referenced above (Invoice IN-00619850).

Also by way of this letter, you may use the data obtained from said research to publish the results of this study, subject to the following conditions:

- 1) The publication **must not include** any test items from the unauthorized version of the Chinese MMSE that was used without permission, or any other version of the MMSE in any language.
- 2) The publication **must include** this statement:
An unauthorized version of the Chinese MMSE was used by the study team without permission, however this has now been rectified with PAR.
The MMSE is a copyrighted instrument and may not be used or reproduced in whole or in part, in any form or language, or by any means without written permission of PAR (www.parinc.com).
- 3) One (1) copy of the article must be sent via email to PAR to confirm that the above conditions have been met.
Email: afernandez@parinc.com

If you have any questions or concerns, please do not hesitate to contact me directly.

Sincerely,

Andrea Butler Fernandez
Jr. Permissions Specialist
