Start of Block: CONSENT

CONSENT Thank you Thank you for your interest in participating in this study. This study is run by an international team of researchers and is led by researchers at Harvard University and the University of Zurich. Before you begin, it is important that you are informed about the purpose and procedure of this research. Please read the following information carefully.

Purpose of this research

The purpose of this research is to gain insights into people's attitudes and their opinions about science. This research can help us to better understand how people view science.

What to expect from this study

You will be asked to answer questions on your attitudes and opinions about science. We will also ask you an open-ended question that will give you the possibility to elaborate on your answers. Lastly, you will also be asked to answer questions on climate change. Guidance on how to answer questions will be provided.

Anonymity

No personally identifying information will be collected. Any research data published in scientific journals or elsewhere will be anonymous and cannot be traced back to you. This completely anonymized data will be made publicly available.

About this study Participation will take about 15 minutes. You participate voluntarily and can choose not to take part. You can agree to take part and later change your mind. Your decision will not be held against you. You can ask all the questions you want before you decide.

If you have questions, concerns, or complaints, please contact:

Dr. Viktoria Cologna
Harvard University
tisp.manylabs@gmail.com

By selecting "I consent to participate", you consent to the terms and conditions described above.

- ☐ I consent to participate (1)
- ☐ I do **NOT** consent to participate (0)

Start of Block: DEM

DEM_GENDER

At the beginning of this survey, we'd like to ask you for some information about yourself...

What gender do you identify with?

- ☐ Woman (0)
 - ☐ Man (1)
 - ☐ Prefer to self-describe (2)
-
- ☐ Prefer not to say (99)

DEM_AGE How old are you?

DEM_EDU What is your highest completed level of education?

- ☐ Primary education (2)
- ☐ Secondary education (e.g., high school) (3)
- ☐ Higher education (e.g., university degree or higher education diploma) (4)
- ☐ Did not attend school (1)

Start of Block: DEFINITIONS

DEFINITIONS_SCI In this survey, we will ask you questions regarding science and scientists.

When we say “science”, we mean the understanding we have about the world from observation and testing. When we say “scientists”, we mean people who study nature, medicine, physics, economics, history, and psychology, among other things. Please proceed to the next question.
