

Supplementary Material: Analytical process

Figure 3. Overview of analytical process

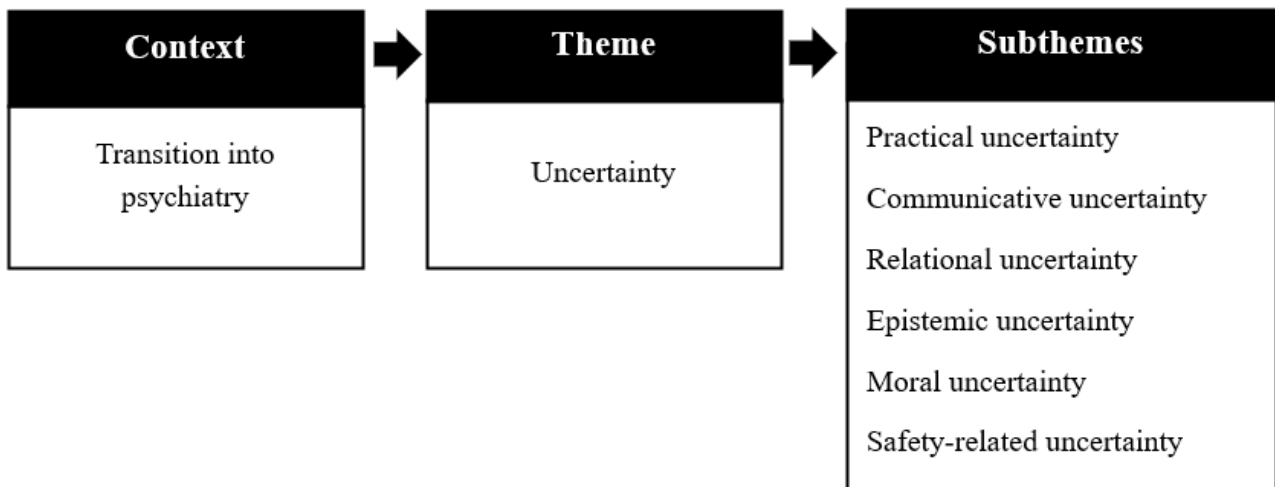

Figure 4. Extracts of iterations of coding

Data example	Initial coding	'Uncertainty'-guided coding
<i>'The nurses disagreed (...) and all of a sudden it's like ten people who turn on you (...) Fortunately, the senior on-call doctor was still there, so I (...) fetched her and observed how she managed the situation.'</i>	Interprofessional collaboration Power Support Apprentice-style learning	Relational uncertainty
<i>'I felt pretty lost when I started and found it hard to get a clear sense of what I was supposed to talk to patients about, and why'</i>	Uncertainty Patient communication Unclear purpose of patient consultations	Communicative uncertainty
<i>'I think in these situations medicine is the lesser evil but it's not so easy for me to say: "Oh well, I'm doing the right thing,</i>	Moral doubt Professional identity No easy/undisputed solution	Moral uncertainty

<i>the good thing, so I'll just ram this needle into your thigh".'</i>
