

Willingness to receive monkeypox vaccine and associated factors among the Ghanaians

Dear Participant,

We are a group of public health researchers in Ghana and we are conducting a quick online survey titled "**Mpox Outbreak in Ghana: Vaccine Uptake Survey**" to better understand public knowledge, attitudes, and willingness regarding Mpox vaccination in Ghana. Your participation will take **less than 5 minutes** and your responses will remain completely **anonymous**. The insights you provide will help inform public health education and vaccine planning efforts. **We kindly invite you to take part and also share the link with others who may be interested.** Thank you for your valuable time and support!
