

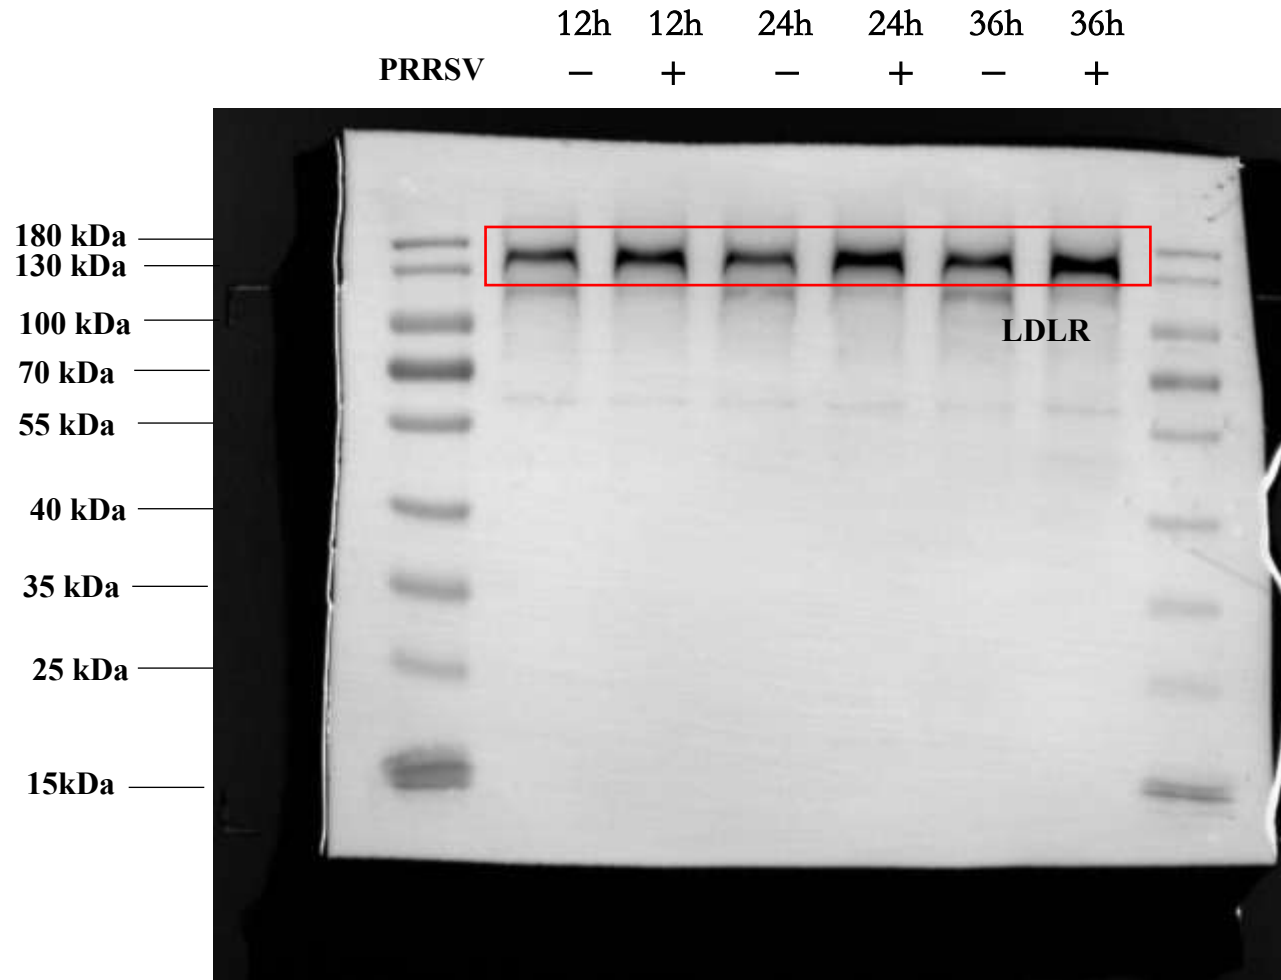

Fig.3B LDLR protein expression changes in PAMs following PRRSV infection.
The 15 kDa and 10 kDa protein markers on 10% protein gel will overlap with each other.

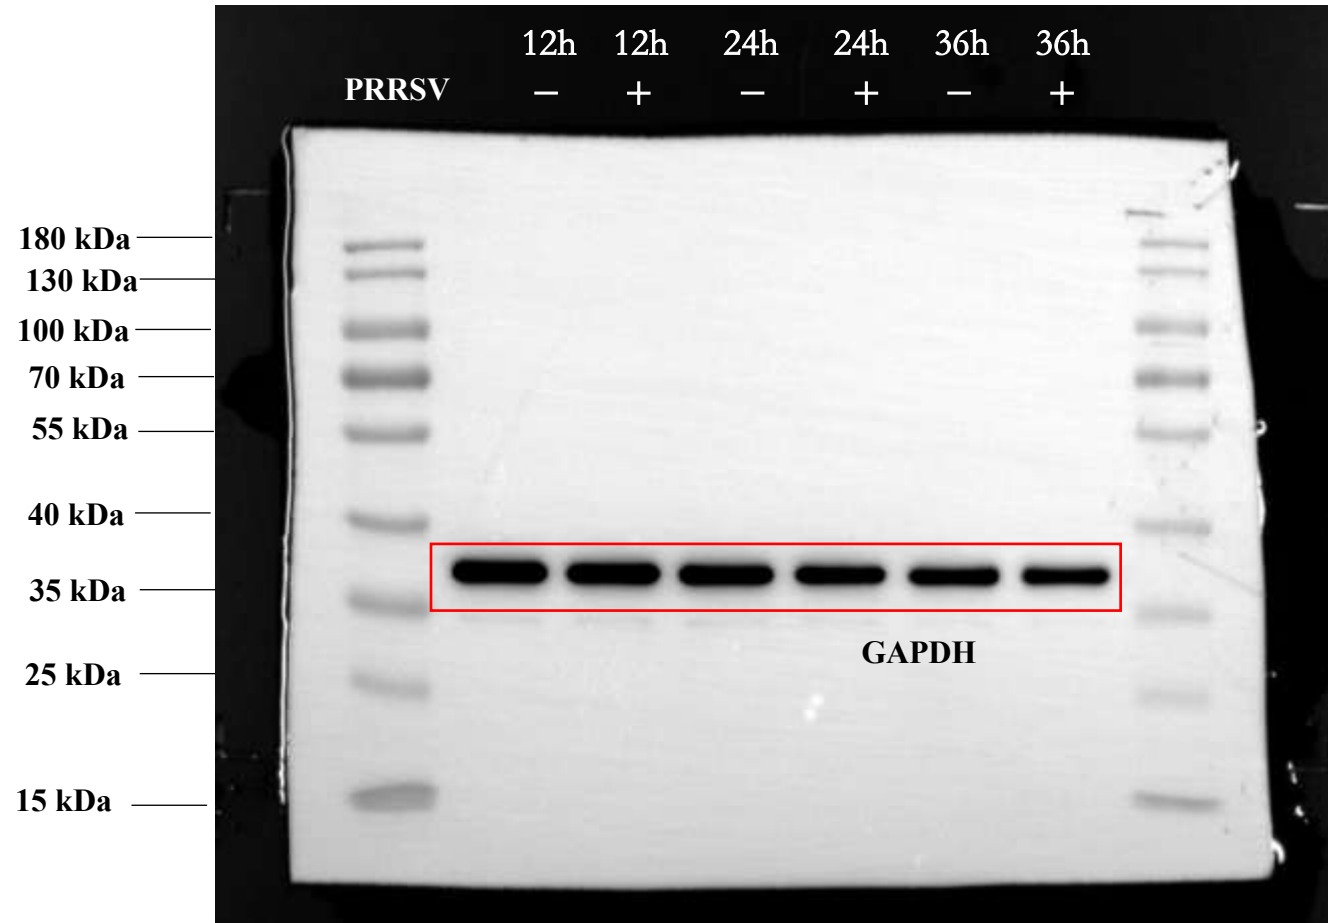

Fig.3B GAPDH protein expression changes in PAMs following PRRSV infection. The 15 kDa and 10 kDa protein markers on 10% protein gel will overlap with each other.

Fig.3B PRRSV N protein expression changes in PAMs following PRRSV infection.

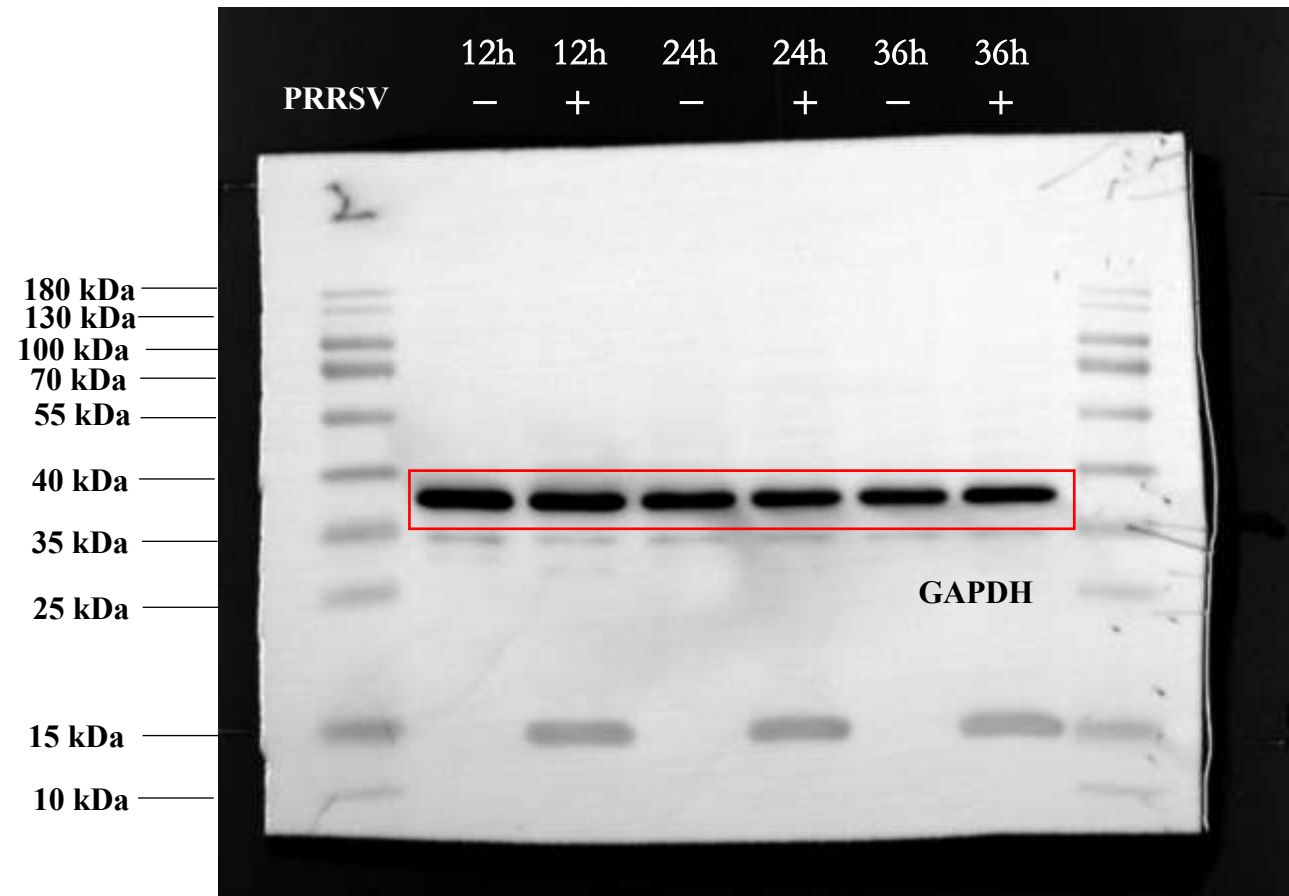

Fig.3B GAPDH protein expression changes in PAMs following PRRSV infection.
