

Supplementary Figure S4: Clustering of sarcomas with complex genomic rearrangements

(A), (right) The original dendrogram based on unsupervised hierarchical clustering with the subclusters Complex SC1 (green), Complex SC2 (blue), and Complex SC3 (purple) clusters highlighted. (left) Magnified regions of the dendrogram corresponding to the Complex clusters. Abbreviations: LMS = leiomyosarcoma; MPNST = malignant peripheral nerve sheath tumors; UPS = undifferentiated pleomorphic sarcoma.
