BOLEH Qualitative Interview Guide

Study: B.O.L.E.H. Initiative
Purpose: To understand participants' experiences and perceptions of the BOLEH dengue-prevention programme.

Participant ID: _____
Participant: _____
Interviewer: _____

Introduction to participant

Thank you for taking the time to speak with us. We would like to know about your experience with the BOLEH programme. There are no right or wrong answers. We are interested in your own experience and opinion, whether positive or negative.

1. **Satisfaction**

Overall, how satisfied were you with the BOLEH programme? Please tell me about your experience.

Optional probes: What did you like about the programme? Was there anything you did not like? Was there anything that was difficult? What could have been improved?

2. **Perceived usefulness**

Do you think the BOLEH programme was useful to you or to your community? Why or why not?

Optional probes: What was most useful? Did you learn anything new? Did the programme help you understand dengue or how to prevent it better? Were any particular activities especially useful?

3. **Community cooperation**

Did you notice any changes in how residents worked together or cooperated with each other to prevent dengue during the BOLEH programme?

Optional probes: Can you give me an example? Did neighbours remind or help each other? Did more people participate in community activities or clean-ups? What role did BOLEH Advocates or floor leaders play? Were there still people who did not cooperate?

4. **Observed behavioural changes**

Since the BOLEH programme started, did you notice any changes in what you or other residents actually did to prevent dengue?

Optional probes: Can you give me an example? Did people check or remove stagnant water more often? Did you notice changes in cleanliness or disposal of containers/rubbish? Did people participate more in clean-up activities? Were there any behaviours that did not change?

Additional: Is there anything else you would like to tell us about BOLEH or dengue prevention in your community?
