- ◯ Mumtaz

Description of Study

2. Review record number *

3. First Author Name *

4. Record year of publication (numerals only) *

5. Title of article *

6. Aim and Objective of the study *

7. Type of study (author classified) *

8. Classification of study - or comments on Q7

9. Included studies (if review)

10. Which therapy was being studied? *

- [ ] Morphine IV
- [ ] Fentanyl IV
- [ ] Fentanyl IN
- [ ] Nalbuphine IV
- [ ] Tramadol IV
- [ ] Nitrous Oxide
- [ ] Methoxyflurane
- [ ] Femoral Nerve block
- [ ] Fascia Iliaca Compartment Block
- [ ] TENS
- [ ] Hypnosis
- [ ] Ketamine IV
- [ ] Ketamine IM
- [ ] Ketamine IN
- [ ] Ketamine Nebuliser
- [ ] Accupressure
- [ ] Accupuncture
- [ ] Paracetamol (Acetaminophen) IV
- [ ] Paracetamol (Acetaminophen) Oral
- [ ] Ibuprofen (oral)
- [ ] Ketorolac
- [ ] Multimodal Drug Therapy
- [ ] Warming
- [ ] Other

11. Which therapy is being studied - if not in list n Q 9 above

12. In which EMS mode is the study conducted? *

- [ ] Primary response - Road
- [ ] Primary Response - Aeromedical
- [ ] Critical Care Retrieval - Road
- [ ] Critical Care Retrieval - Aeromedical
- [ ] Wilderness/Mountain
- [ ] Site based care
- [ ] Mixed Prehospital context
- [ ] Mixed Prehospital/ Emergency Centre
- [ ] Military/Battlefield

13. In which Pain context/typology is the study conducted? *

- [ ] Acute Trauma Pain
- [ ] Acute Non-trauma pain
- [ ] Back Pain
- [ ] Chronic Pain
- [ ] Palliative Care
- [ ] Cardiac Pain

14. Specify type of acute pain (Obstetric pain, Abdominal, etc)

15. In which population is the therapy being studies

- [ ] Adults (>18)
- [ ] Paediatrics (<18)
- [ ] Neonates only
- [ ] Infants only
- [ ] Cognitively impaired

16. Population - if not exactly described in Q15

17. Inclusion criteria *

18. Exclusion criteria *

19. Was a specific pathology or injury targeted? name it.

20. Country of Origin of the data *

Findings

21. Population (N=?)

22. Sample Size (n=) *

23. Pain Assessment System

- [ ] NRS
- [ ] VAS
- [ ] Adjective Scale
- [ ] Behavioural scale
- [ ] Multiple
- [ ] Other

24. Elaborate on 'other'

25. Dosages or applications of therapies *

26. Effectiveness Findings *

27. Adverse events and safety findings *

28. Acceptability Findings *

29. Feasibility Findings *

30. Other Findings *
