Follow-up Form for Chronic Diabetic Complications

Participant ID: _____

Interviewer: _____

Date of follow-up: _____ / _____ / _____

Current Major Health Conditions

1. Cerebrovascular Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Ischaemic stroke	____ / ____ / _____
☐ Cerebral haemorrhage	____ / ____ / _____
☐ Subarachnoid haemorrhage	____ / ____ / _____
☐ Transient ischaemic attack	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

2. Kidney Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Diabetic kidney disease	____ / ____ / _____
☐ Renal failure	____ / ____ / _____
☐ Acute nephritis	____ / ____ / _____
☐ Chronic nephritis	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

3. Heart Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Myocardial infarction	____ / ____ / _____
☐ Angina pectoris	____ / ____ / _____
☐ Coronary revascularisation	____ / ____ / _____
☐ Congestive heart failure	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

4. Eye Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Retinal haemorrhage or exudation	____ / ____ / _____
☐ Optic disc oedema	____ / ____ / _____
☐ Cataract	____ / ____ / _____
☐ Diabetic retinopathy	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

5. Vascular Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Arterial occlusive disease	____ / ____ / _____
☐ Dissecting aneurysm	____ / ____ / _____
☐ Diabetic lower-extremity arterial disease	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

6. Neurological Disease

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Diabetic neuropathy	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

7. Other Systemic Diseases

Disease status: ☐ Yes ☐ No

Disease type	**Date of diagnosis**
☐ Diabetic foot disease	____ / ____ / _____
☐ Diabetic skin lesions	____ / ____ / _____
☐ Other: _____	____ / ____ / _____

Note: This follow-up form was developed by the research team with reference to the National Basic Public Health Service Standards (Third Edition) of China. It was used to supplement and verify information on chronic diabetic complications during follow-up and served as a clinical information collection tool.**Dates of diagnosis were recorded in YYYY/MM/DD format.**
