DARE TO SHARE SESSION: WORKING WITH "MESSY" IMPLEMENTATION DATA

THURSDAY MAY 28TH 14:15-15:35 PM, MULTIPURPOSE ROOM

Are you working on any implementation research projects? Want to contribute and be an author on a methods paper?

The **ISBNPA Implementation and Scalability SIG** wants to hear from you in this brainstorming session about how you integrate implementation data and what recommendations you have for others! Session facilitated by Drs. Gabriella McLoughlin and Nicole Nathan

This session will cover:

- **Examples of using implementation data in ongoing trials**
- **Breakout groups to share successes/challenges**
- **Group discussion and consensus biulding**
- **Developing recommendations for implementation data analysis methods**

This session is part of research project, so you will get the chance to 1) participate (optional) and 2) be an author on our methods paper based on this session! (Temple university IRB approval #33266)
