CARE Checklist

Case report: "Importance of early intervention in case of Traumatic retrobulbar hemorrhage and role of Emergency Medicine Clinicians"

Instructions: for each item, note the page and line number(s) in your manuscript where it is reported (JMCR requires continuous line numbering in the main text). If an item does not apply to this case, write "N/A" and briefly say why. Submit this completed checklist as a separate supplementary file, as JMCR requires. Source: CARE (CAse REport) Guidelines, care-statement.org/checklist.

#	Topic	Checklist Item	Reported on (page/line #)
1	**Title**	The diagnosis or intervention of primary focus followed by the words "case report".	Page 1, Lines 1-3
2	**Key Words**	2 to 5 key words that identify diagnoses or interventions in this case report, including "case report".	Page 1, Lines 5-7
3	**Abstract**	Introduction: What is unique about this case and what does it add to the literature?	Page 3, Lines 78-107
		Main symptoms and/or important clinical findings.	
		The main diagnoses, therapeutic interventions, and outcomes.	
		Conclusion: What is the main "take-away" lesson from this case?	
4	**Introduction/Background**	One or two paragraphs summarizing why this case is unique, with up-to-date references.	Page 4, Lines 112-138
5	**Patient Information / Case Presentation**	De-identified patient-specific information: demographic information (age, sex, ethnicity, occupation), main symptoms, medical/family/psychosocial history, genetic information, and relevant past interventions and outcomes.	Page 4, Lines 139-146
6	**Clinical Findings**	Describe relevant physical examination (PE) and other significant clinical findings.	Page 4, Lines 148-154
7	**Timeline**	Historical and current information from this episode of care, organized as a figure or table.	Page 5, Lines 155
8	**Diagnostic Assessment**	Diagnostic methods (physical exam, laboratory testing, imaging, questionnaires); diagnostic challenges (access, financial, cultural); diagnostic reasoning, including other diagnoses considered; prognostic characteristics (staging, grading) where applicable.	Pages 5,6 Lines 157-169
9	**Therapeutic Intervention**	Types of therapeutic intervention (pharmacologic, surgical, procedural, preventive, self-care); administration of therapeutic intervention (dosage, strength, duration); changes in therapeutic intervention, with rationale.	Page 6, Lines 171-185

10	**Follow-up and Outcomes**	Clinician- and patient-assessed outcomes, if appropriate; important follow-up diagnostic and other test results; intervention adherence and tolerability (how was this assessed?); adverse and unanticipated events.	Page 6, Lines 187-190
11	**Discussion**	Strengths and limitations of your approach/management of this case; discussion of the relevant medical literature; the rationale for your conclusions; the primary "take-away" lessons from this case (without references), matching the Abstract conclusion.	Pages 6, 7 Lines 192-235
12	**Patient Perspective**	The patient should share their perspective or experience in 1-2 paragraphs, where appropriate.	Page 7, Lines 237-242
13	**Informed Consent**	Did the patient give informed consent? Please provide if requested.	Page 8, Lines 274-276
