Article

The Syncytial Mesh Model: glial spatial control, neuronal response geometry, and the limits of local EEG reduction

Journal

Cognitive Neurodynamics

Author

Andreu Ballús Santacana

Affiliation

Department of Philosophy, Universitat Autònoma de Barcelona, Cerdanyola del Vallès, Spain

Corresponding author

andreu.ballus@uab.cat

Contents

The accompanying code/data ZIP supplies exact model constants, scripts, numerical output and derived EEG contrasts.
