

Etosha: Wet season spatially overlapping hulls

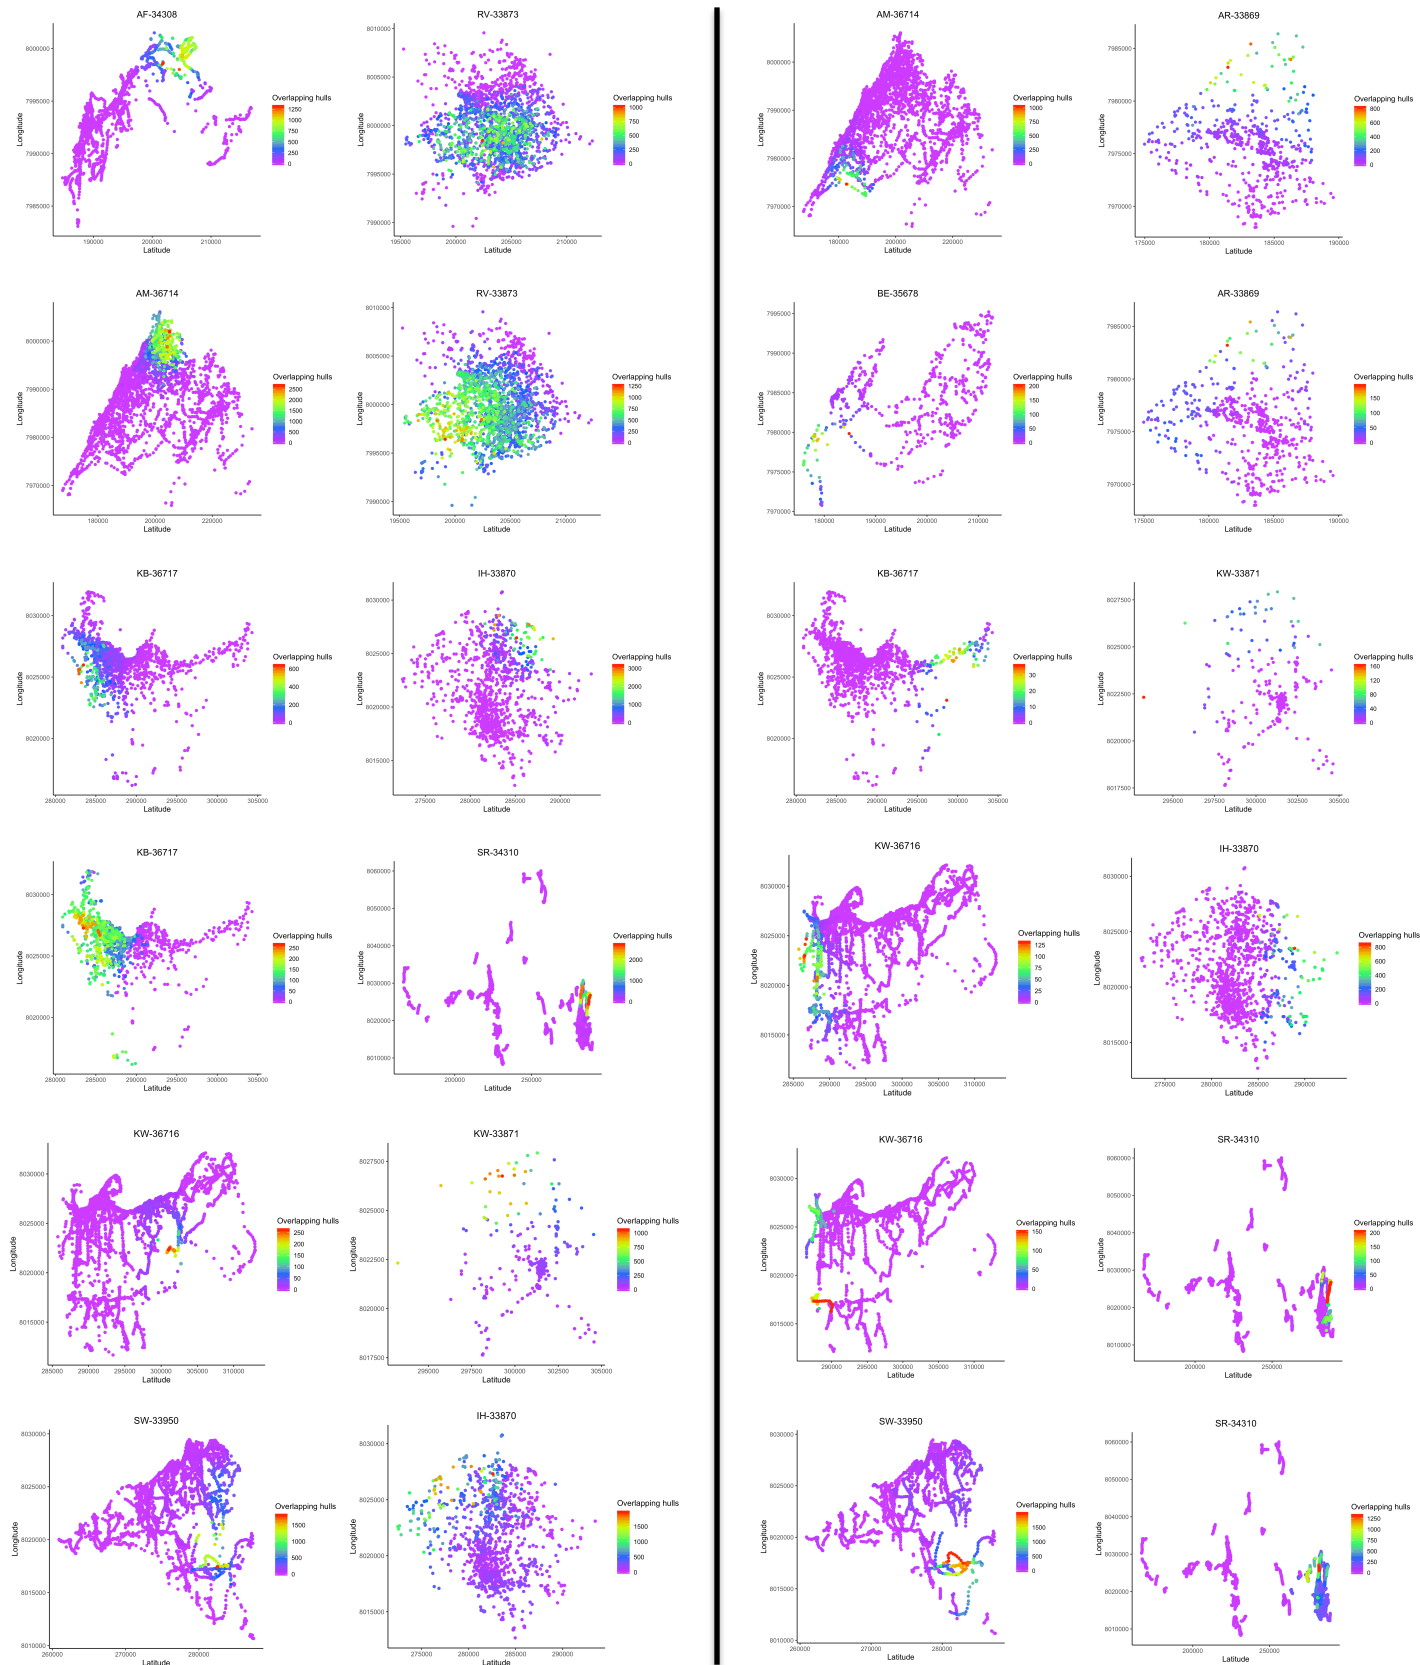

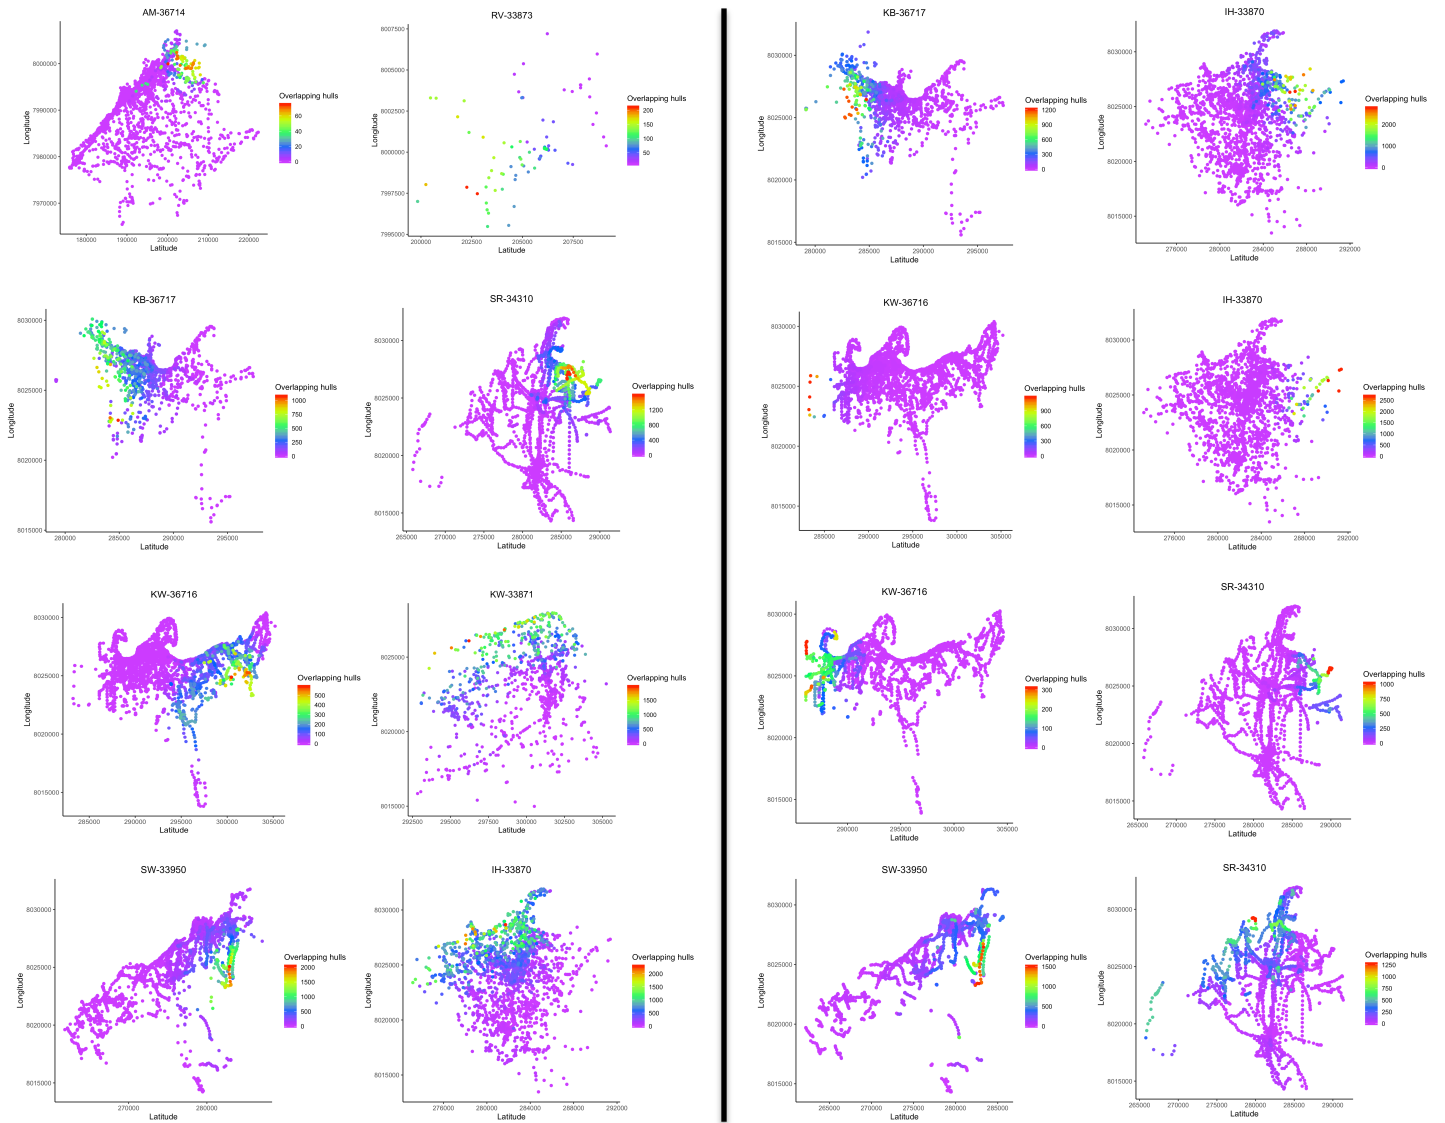

Etosha: Dry season spatially overlapping hulls

Chobe: Wet season spatially overlapping hulls

Chobe: Dry season spatially overlapping hulls

Supplementary Appendix 2. Frequency of spatially overlapping hulls for individuals of a dyad. Each row represents two dyads, and the center line separates each dyad. Overlapping hulls of the lion from the dyad are represented by left panels and spotted hyenas are represented by right panels. Red colours indicate the greatest number of overlapping hulls, and purple the least.
