

AUTHORS

Amanjot Kaur received her Bachelor's degree in the department of Information Technology from B.B.S.B. Engineering College, Punjab, India in 2018. Currently, she is pursuing her master's degree in Information Technology from UIET, Panjab University, Chandigarh, India. Her research area includes wireless sensor network.

Dr. Inderdeep Kaur Aulakh is a Professor in the Department of Information Technology, University Institute of Engineering and Technology, Panjab University, Chandigarh, India. She has a Ph.D. in cognitive radio networks. She has 29 years of experience partly in Tele-Communication Industry and rest in teaching undergraduate and postgraduate students of Information Technology and Electronics Communication Engineering. She has guided 23 students in graduate thesis work and currently is supervising 5 PhD scholars in the field of wireless sensor networks and IOT. Dr. Aulakh has published 72 papers including 47 international publications. She remains actively involved in recent developments of her field by attending and organizing seminars, workshops, conferences etc.

Meenakshi Malhotra received her Bachelor's degree in the Department of Information Technology, R.I.E.T, Gautam Buddha Technical University, Kanpur in 2012 and master's degree from UIET, Panjab University, Chandigarh in 2015. Currently, she is a PhD Scholar in the Department of Information Technology, University Institute of Engineering and Technology, Panjab University, Chandigarh, India. She has a total of 2 years research experience in the field of cognitive radio networks. She has 7 years of teaching experience. Ms. Meenakshi has published 10 papers including National, International and Journal publications. Her research interest includes Data Analysis, IoT and Cognitive Radio Networks. She actively participates in many workshops/ seminars/ FDPs etc. to update the knowledge and well-known current trend.
