

Supplementary Figure 1. Circadian variation in time of cardiac arrest in relation to valvular lesion

Supplementary Figure 2

Supplementary Figure 3

(A) Outcomes in relation to AR status and time to CPR: All

(B) Outcomes in relation to AR status and time to CPR: EMS response time >11 min

(B) Outcomes in relation to AR status and time to CPR: EMS response time ≤11 min

Supplementary Figure 4

Supplementary Figure 5

(A) Outcomes in relation to MR status and time to CPR: All

(B) Outcomes in relation to MR status and time to CPR: EMS response time >11 min

(B) Outcomes in relation to MR status and time to CPR: EMS response time ≤11 min

Supplementary Figure 6

Supplementary Figure 7. Relative importance of predictors of survival
