

Survey V-OSCE | 5th Year | UPCH

Satisfaction and Competencies Survey regarding V-OSCE 2020

***Mandatory**

1. Email: *

2. Age: *

3. Genre: *

Mark only one oval.

☐ Female

☐ Male

4. Was the introduction you received before V-OSCE clear? *

Mark only one oval.

☐ Yes

☐ No

5. The V-OSCE has allowed you to put your knowledge into practice (taking a medical history, physical examination, communication): *

Mark only one oval.

1 2 3 4 5

Strongly disagree

☐☐☐☐☐

Strongly agree

6. Did this V-OSCE meet your expectations as a learning tool? *

Mark only one oval.

	1	2	3	4	5	
Strongly disagree	☐	☐	☐	☐	☐	Strongly agree

7. Overall, how would you rate this V-OSCE? (coordination, actors, examiners, provided feedback) *

Mark only one oval.

	1	2	3	4	5	
Very bad	☐	☐	☐	☐	☐	Excellent

8. How difficult was it to fill out the Virtual Medical Record, compared to the written one? *

Mark only one oval.

	1	2	3	4	5	
Very difficult	☐	☐	☐	☐	☐	Very easy

9. What could be improved about the V-OSCE? You can check more than one: *

Select all that apply.

- ☐ Decrease number of stations
- ☐ Increase time per station
- ☐ Add a resting time between stations
- ☐ Improve fluency when changing between stations
- ☐ Improve the selection of clinical cases
- ☐ Implement less complicated clinical cases
- ☐ More tests and simulated practices prior to the V-OSCE
- ☐ Clearer and more precise instructions
- ☐ Improve simulation resources (cardiology and pulmonology stations)
- ☐ Improve audio / video quality
- ☐ Provide with better questions, focused on clinical practice
- ☐ Improve / lengthen the feedback from the examiners
- ☐ Others (describe below)

10. Others:

11. What station from the V-OSCE most exceeded your expectations? *

Mark only one oval.

- ☐ Endocrinology - Diabetes
- ☐ Endocrinology - Hypothyroidism
- ☐ Gastroenterology - Acute Diarrhea
- ☐ Rheumatology - Painful shoulder syndrome
- ☐ Hematology - Anemia

12. Why? *

Mark only one oval.

- ☐ Good feedback
- ☐ Very academic
- ☐ I was able to apply what I learned
- ☐ Good station design / organization
- ☐ Good actor / simulation
- ☐ Clear and direct instructions

13. Which station from the V-OSCE do you think could be improved the most? *

Mark only one oval.

- ☐ Endocrinology - Diabetes
- ☐ Endocrinology - Hypothyroidism
- ☐ Gastroenterology - Acute Diarrhea
- ☐ Rheumatology - Painful shoulder syndrome
- ☐ Hematology - Anemia

14. Why? *

Mark only one oval.

- ☐ Insufficient feedback
- ☐ The case was too complicated
- ☐ Actor was not focused on the case / not very realistic
- ☐ The layout of the station was too complicated
- ☐ Unclear instructions
- ☐ I have not been taught about this pathology in class

15. What do you think about this V-OSCE compared to last year's OSCE? Have you felt more comfortable or less nervous doing the V-ECOE compared to the face-to-face examination? Tell us your suggestions or any additional comment. *
