

Table 1. Inclusion and exclusion criterias

Criteria number	Inclusion	Exclusion
i	Have as expression platform a member of the <i>Nicotiana</i> genus	Wild type plants
ii	Use Hairy Root culture induce from the <i>rol</i> <i>R. rhizogenes</i> genes	Recombinant system does not undergo any downstream process
iii	Express, through heterologous means, some recombinant protein from Hairy Root	Recombinant system with non-mention yield
iv	/	Recombinant expression only of reporter protein and/or selection gene
v	/	HR culture non-derived from <i>R. rhizogenes rol</i> genes
vi	/	Articles in languages other than English
