

Supplementary File 17: BEHAVIOUR: Examples of comments on Facebook and the post-MOOC Evaluation indicative of an intention to change what or how participants teach other clinicians or students

Source	Comment
FB, Wk 2	I really like how the educational material is presented. I am a teacher and this is a very important lesson for me.
FB, Wk 2	What I've learned new that I intend to use is cramming down task training
FB, Wk 5	I enjoyed the activities from now on i will use this way of teaching it's more exciting than just giving new ideas the old way
Evaluation	i will also use to improve my teaching of students and junior staff
Evaluation	I plan to use some of the resources from this course with my students
Evaluation	Helpful to ... teach my students and colleagues
Evaluation	I also plan to present to the staff at my hospital on what i have learned from the course.
Evaluation	I will not only improve myself but will share the knowledge I gained through this course to improve the SCI care givers, students, SCI patients and physio colleague that will ultimately improve the quality of SCI care
Evaluation	I will use the knowledge and skills to ...teach more junior staff and other healthcare professionals, patients, families and carers
Evaluation	I will definitely use what I have learned to help others, including my colleagues, students, and other healthcare professionals, improve as well!
Evaluation	It will help ... improve my teaching skills for the SCI unit in the PTA program at a community college that I teach at.
Evaluation	it inspired me to go through the course for the overview and to learn about how to teach student
Evaluation	will also use to improve my teaching of students and junior staff
