

Supplementary File 13: EFFECTIVENESS: Examples of comments on Facebook the post-MOOC Evaluation indicative of a change in confidence

Source	Comment
FB, Wk 2	I feel more confident now when approaching a SCI patient and educating/training them about tenodesis grip
FB, Wk 2	This week has taught me a lot of techniques that are a little beyond the basics, this has given me confidence to go ahead and be part of that aspect of a patients rehab.
FB, Wk 2	I feel more confident teaching these skills to my patients now.
FB, Wk 2	I have also gained confidence in teaching wheelchair skills and knowing how to maximise safety whilst doing so, allowing the patients to also feel more confident when practicing.
FB, Wk 2	I loved learning about different strategies to improve a tenodesis grip..... it's been great to increase my knowledge and feel more confident in this area. Thank you!
FB, Wk 2	I have learned a lot this week. In particular something I had little experience of was how to complete wheelchair mobility on curbs/steps. I would feel more confident to teach patients to perform these skills now. Thank you.
FB, Wk 5	I feel so much more confident in treating those with spinal cord injuries.
FB, Wk 5	Now I'm more confident to work with patients with SCI.
FB, Wk 5	The course has been excellent. I've learned a lot of general background information that gives me more confidence in my wheelchair & seating work
FB, Wk 5	I feel a lot more confident to manage the few patients I come across in my rehab setting.
FB, Wk 5	now I feel more confident and get a a lot of insight and pool of knowledge from this course
FB, Wk 5	This course has helped boost my confidence in providing care as a Physiotherapist.
FB, Wk 5	...after receiving this course I feel much more confident about how to handle it.
Evaluation	The course was excellent. I feel more confident that I can help someone with SCI.
Evaluation	It helped me be more confident while treating SCI patients
Evaluation	Being a junior clinician, this course has given me confidence to competently manage SCI.
Evaluation	I now feel alot more confident
Evaluation	I'm more confident to handle SCI patients. thank you.
