2. Can you give me an example of where this project is working really well? What does it look like when it works really well? What do you think makes it work well in this case?
3. Can you give me an example of where this project is not working very well? Why is it not working well in this case? (Probe to see if the problem is that it is not being implemented well, or if the theory of change is not working as expected).
4. What is the project progress towards achieving the intermediary outcomes?
5. What is it about the project that you think makes a difference?
