Authors : Adnan Al-Hindi

Manuscript ID : 1083349972060809

Journal : Parasites & Vectors

Article type : Research

Dear Professor Adnan Al-Hindi,

Thank you for your appeal. I can confirm that you do not need to pay the article-processing charge on this occasion.

Any discount or waiver granted as a result of insufficient funds, or as part of Springer Nature's country waiver policy will not be valid where articles are eligible under any OA agreement between the authors' institution or funder and Springer Nature. Once the eligibility check is completed, if the article is eligible, the OA agreement will override any waiver or discount at the point of acceptance.

Yours sincerely,

Springer Nature waivers team
