

1 Online Resource 3 Analysis of variance of infection rate caused by *Bipolaris sorokiniana*
2 isolates on barley leaves of two cultivars in experiments conducted under controlled
3 conditions.

Source of variation	Degree of freedom	df	Square mean	F	p-value
Isolate	16	553.80	34.61	22.01	<0.001*
Cultivar	1	29.82	29.82	18.96	<0.001*
Experiment	1	3.68	3.68	2.33	0.128 ^{NS}
Isolate*Cultivar	16	36.44	2.27	1.44	0.125 ^{NS}
Error	169	265.81	1.57	-	-

4 * Significant and ^{NS} not significant at P=0.01
