

Topic	Item	Checklist item description	Reported on Line
Title	1	The diagnosis or intervention of primary focus followed by the words "case report"	Page 1, Paragraph 1
Key Words	2	2 to 5 key words that identify diagnoses or interventions in this case report, including "case report" ...	Page 1, Paragraph 30
Abstract (no references)	3a	Introduction: What is unique about this case and what does it add to the scientific literature?	Page 1, Paragraph 11
	3b	Main symptoms and/or important clinical findings	Page 1, Paragraph 16
	3c	The main diagnoses, therapeutic interventions, and outcomes	Page 1, Paragraph 18
	3d	Conclusion—What is the main "take-away" lesson(s) from this case?	Page 1, Paragraph 23
Introduction	4	One or two paragraphs summarizing why this case is unique (may include references)	Page 1, Paragraph 38-39
Patient Information	5a	De-identified patient specific information.	Page 1, Paragraph 42
	5b	Primary concerns and symptoms of the patient.	Page 1, Paragraph 43
	5c	Medical, family, and psycho-social history including relevant genetic information	Page 1, Paragraph 43-44
	5d	Relevant past interventions with outcomes	Page 1, Paragraph 44-45
Clinical Findings	6	Describe significant physical examination (PE) and important clinical findings.	Page 1, Paragraph 48
Timeline	7	Historical and current information from this episode of care organized as a timeline	Page 2, Paragraph 55
Diagnostic Assessment	8a	Diagnostic testing (such as PE, laboratory testing, imaging, surveys).	Page 2, Paragraph 51
	8b	Diagnostic challenges (such as access to testing, financial, or cultural)	N/A
	8c	Diagnosis (including other diagnoses considered)	Page 2, Paragraph 60
	8d	Prognosis (such as staging in oncology) where applicable	Page 2, Paragraph 72
Therapeutic Intervention	9a	Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care)	Page 2, Paragraph 71
	9b	Administration of therapeutic intervention (such as dosage, strength, duration)	Page 2, Paragraph 72
	9c	Changes in therapeutic intervention (with rationale)	Page 2, Paragraph 72
Follow-up and Outcomes	10a	Clinician and patient-assessed outcomes (if available)	Page 2, Paragraph 73
	10b	Important follow-up diagnostic and other test results	Page 2, Paragraph 57
	10c	Intervention adherence and tolerability (How was this assessed?)	Page 2, Paragraph 74
	10d	Adverse and unanticipated events	Page 2, Paragraph 83
Discussion	11a	A scientific discussion of the strengths AND limitations associated with this case report	Page 2, Paragraph 82
	11b	Discussion of the relevant medical literature with references	Page 2, Paragraph 79
	11c	The scientific rationale for any conclusions (including assessment of possible causes)	Page 2, Paragraph 78
	11d	The primary "take-away" lessons of this case report (without references) in a one paragraph conclusion	Page 2, Paragraph 84-85
Patient Perspective	12	The patient should share their perspective in one to two paragraphs on the treatment(s) they received	N/A
Informed Consent	13	Did the patient give informed consent? Please provide if requested	Yes ☒ No ☐

Methods N/A in this study

Informed Consent for Publication of Clinical Case

Patient's Name: **Cristóbal Del Ángel Pérez.** Date of Birth: **19/07/2018.** Date of Consent: **19/05/2023.**

I, Juliana Pérez del Ángel the legal guardian of **Cristobal Del Angel Perez**, hereby provide my informed consent for the publication of the clinical case titled "**Early-Onset Systemic Lupus Erythematosus Presenting as Membranous Lupus Nephritis in a 2-Year-Old Male: A Case Report**" in **Bulletin of the National Research Centre.**

I understand that this case report will contain detailed medical information and personal data about **Cristobal Del Angel Perez**. The purpose of publishing this case report is to share valuable medical knowledge, experiences, and outcomes with the medical community and to contribute to scientific literature.

I have been provided with a thorough explanation regarding the purpose, content, and potential risks and benefits of publishing this clinical case. I understand that:

1. The case report may include information such as the patient's medical history, clinical findings, laboratory results, diagnostic procedures, treatment interventions, and outcomes.
2. The patient's identity will be protected by ensuring anonymity and confidentiality. All identifying information, such as the patient's name, address, and specific demographic details, will be removed or altered to prevent identification.
3. The case report may be accessible to the general public, medical professionals, and researchers through various forms of publication, including print and online platforms.
4. By publishing this case report, the information provided may contribute to medical education, research, and clinical decision-making.

I have had the opportunity to ask questions and discuss any concerns regarding the publication of this clinical case. The risks associated with the publication, including potential loss of privacy, have been explained to me, and I am aware that there may be no direct benefit to my child or myself.

I understand that participation is voluntary, and I have the right to withdraw my consent for publication at any time before the final publication. However, once the article has been published, it may not be possible to retract or remove it from circulation.

I hereby give my informed consent for the publication of the clinical case titled "**Early-Onset Systemic Lupus Erythematosus Presenting as Membranous Lupus Nephritis in a 2-Year-Old Male: A Case Report**" and authorize the use of relevant medical information related to my child, [**Cristobal Del Angel Perez**].
