Declaration of Conflict of Interest

All authors declared that they have no conflict of any financial interest to disclose.

Funding

This study has not received any specific funding from any funding agencies. However, the budget for proposal writing was supported by the WHO-country office and the Ministry of Health, Bhutan.

Acknowledgment

We are grateful to the Ministry of Health, Bhutan for organizing the meeting to write the research proposal. We are grateful to Dr. Sonam Wangchuk, Head of the Royal Centre for Disease Control, for motivating and inspiring us to write this research article. We would like to convey our gratitude to all health workers, especially those involved in COVID-19 testing RT-PCR laboratories.

Author contribution

Sl. No.	Authors	Author contribution
1	Kunzang Dorji	Conception and design of the study, Acquisition of data, Data analysis and/or interpretation, Drafting of manuscript and/or critical revision, Approval of final version of the manuscript.
2	Sonam Gyeltshen	Conception and design of the study, Acquisition of data, Drafting of manuscript and/or critical revision, Approval of final version of the manuscript.
3	Meejur Palden	Acquisition of data, and Approval of final version of the manuscript.
4	Kelzang Choden	Acquisition of data, and Approval of final version of the manuscript.
5	Tashi Dorji	Acquisition of data, and Approval of final version of the manuscript.
6	Sonam Wangchuk	Acquisition of data, and Approval of final version of the manuscript.

Ethical Consideration

The study proposal was submitted to the research ethics board of Health (REBH) in Bhutan for administrative clearance and ethical review. The study was approved by REBH: REBH/Approval/2022/026, with administrative clearance: MoH/PPD/ADM.CL/9/2022/029. The study used routine surveillance data, we have maintained and protected patient privacy information.
