

Supplementary Figure 2. Serum cholesterol concentrations in hyperthyroid cats and euthyroid controls. (A) comparison of cholesterol concentrations measured in euthyroid control cats compared to hyperthyroid cats before treatment. (B) Changes in serum cholesterol measured in hyperthyroid cats before (HT0), 1 month (HT1) and 3 months (HT3) after I-131 treatment. Lines connect the same cat measured serially. * $P < 0.05$.
