

Additional file 3: Supplementary Figure 2. (A) Survival data in different BMI ranges in the early recurrence group. PRS, post recurrence survival; BMI, body mass index. **(B)** Survival data in different Hb ranges in the late recurrence group. PRS, post recurrence survival; BMI, body mass index. **(C)** Survival data in different NLR ranges in the early recurrence group. PRS, post recurrence survival; NLR, neutrophil to lymphocyte ratio. **(D)** Survival data in different NLR ranges in the late recurrence group. PRS, post recurrence survival; BMI, body mass index; NLR, neutrophil to lymphocyte ratio. **(E)** Survival data in different monocytes ranges in the late recurrence group. PRS, post recurrence survival.
