

Phase I Study of an Active Immunotherapy for Asymptomatic Phase
Lymphoplasmacytic Lymphoma with DNA Vaccines Encoding Antigen-Chemokine
Fusion
2009-0465

Core Protocol Information

<u>Short Title</u>	Immunotherapy for Asymptomatic Phase Lymphoplasmacytic Lymphoma
<u>Study Chair:</u>	Sheeba K. Thomas
<u>Additional Contact:</u>	Jasper B. Olsem Kimbra S. Harris Tundra S. Gibson
Additional Memo Recipients:	Recipients List OPR Recipients (for OPR use only) None Study Staff Recipients None
<u>Department:</u>	Lymphoma/Myeloma
<u>Phone:</u>	713-792-2860
<u>Unit:</u>	429
Study Manager:	Jasper B. Olsem
<u>Full Title:</u>	Phase I Study of an Active Immunotherapy for Asymptomatic Phase Lymphoplasmacytic Lymphoma with DNA Vaccines Encoding Antigen-Chemokine Fusion
Public Description:	N/A
<u>Protocol Type:</u>	Standard Protocol
Protocol Phase:	Phase I
<u>Version Status:</u>	Activated -- Closed to new patient entry as of 09/24/2018
Version:	25
<u>Document Status:</u>	Saved as "Final"
<u>Submitted by:</u>	Tundra S. Gibson--9/10/2018 12:21:45 PM
OPR Action:	Accepted by: Yadira L. Cortez -- 9/24/2018 7:40:21 AM

Which Committee will review this protocol?

☒ The Clinical Research Committee - (CRC)
