Supplementary Figure 1

Supplementary Figure S1: Full uncropped blot images of western blot analysis in

Figure 5. (A) The expression of SUMO1 in OA mice treated with salubrinal. (B-F) The expression of CTSK (B), RANKL (C), ALP (D), RUNX2 (E), β -actin (F) in OA mice with salubrinal. (G-J) The expression of SUMO1 (G), β -actin (H), RUNX2 (I), RANKL (J) in OA mice treated with salubrinal after siRNA transfection showed by full-length blots of western blot. n = 6.
