

Figure S1

Figure S1. The initiation curve of Jak-Stat pathway inhibitor Ruxolitinib and S3I-201. Ruxolitinib is the inhibitor of JAK1/2, the IC_{50} is 18.88 μM and 19.07 μM in S18 (a) and 5-8F (b). The S3I-201 is the inhibitor of STAT3. The IC_{50} is 139.6 μM and 139.3 μM in S18 (c) and 5-8F (d).
