Question 5: Which resources do staff at your GP practice signpost or signpost or share with patients?*						
Information resource type	Current signposting reported		95% CI		McNemar test	
	n	%	Lower	Upper	% difference	p-value
Websites	138	76.2	69.4	82.2	54.7	0.0000
Support groups	51	28.2	21.8	35.3	6.6	0.0833
Printed materials	39	21.5	15.8	28.3	-	-
Do not know	33	18.2	12.9	24.6	-3.3	0.4795
Online training	22	12.2	7.8	17.8	-9.4	0.0065
Video clip	18	9.9	6.0	15.3	-11.6	0.0010
Audio clip/podcast	17	9.4	5.6	14.6	-12.2	0.0004
Digital app	16	8.8	5.1	14.0	-12.7	0.0002
Question 6: Which resources would it be useful for staff at your GP practice signpost or signpost or share with patients?***						
Information resource type	Signposting would be useful reported		95% CI		McNemar test	
	n	%	Lower	Upper	% difference	p-value
Digital App	138	77.1	70.2	83.0	20.1	0.0000
Support group	128	71.5	64.3	78.0	14.5	0.0006
Online training	108	60.3	52.8	67.6	3.4	0.4533
Audio clip/Podcast	107	59.8	52.2	67.0	2.8	0.5078
Video clip	104	58.1	50.5	65.4	1.1	0.8055
Printed material	102	57.0	49.4	64.3	-	-
Website	89	49.7	42.2	57.3	-7.3	0.0960
Do not know	17	9.5	5.6	14.8	-47.5	0.0000
<p><i>95% confidence interval for proportion (95% CI) calculated using the proportion of respondents of respondents indicating "yes" to each resource type, % difference between number of responses to each resource type and printed material and p-value calculated using McNemar's test for significance, with printed material as the reference category.</i></p> <p><i>*Total number of unique respondents to question 5, n=181</i></p> <p><i>**Total number of unique respondents to question 6, n = 179</i></p>
