

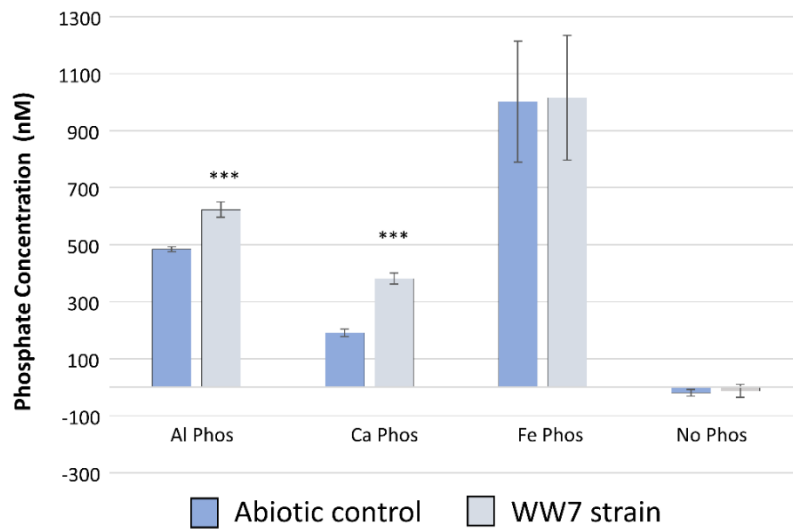

Figure S1. Aluminum Phosphate (Al Phos), Calcium Phosphate (Ca Phos), Iron Phosphate (Fe Phos) solubilization assay in strain WW7. No Phosphate (No Phos) condition was used as negative control. Bars and error bars represent the average and standard deviation of 4 independent measurements. Significance values of the T-test are * $p < 0.1$; ** $p < 0.05$; *** $p < 0.01$.
