

Supplementary Figure S1. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of anxiety on NAFLD.

A

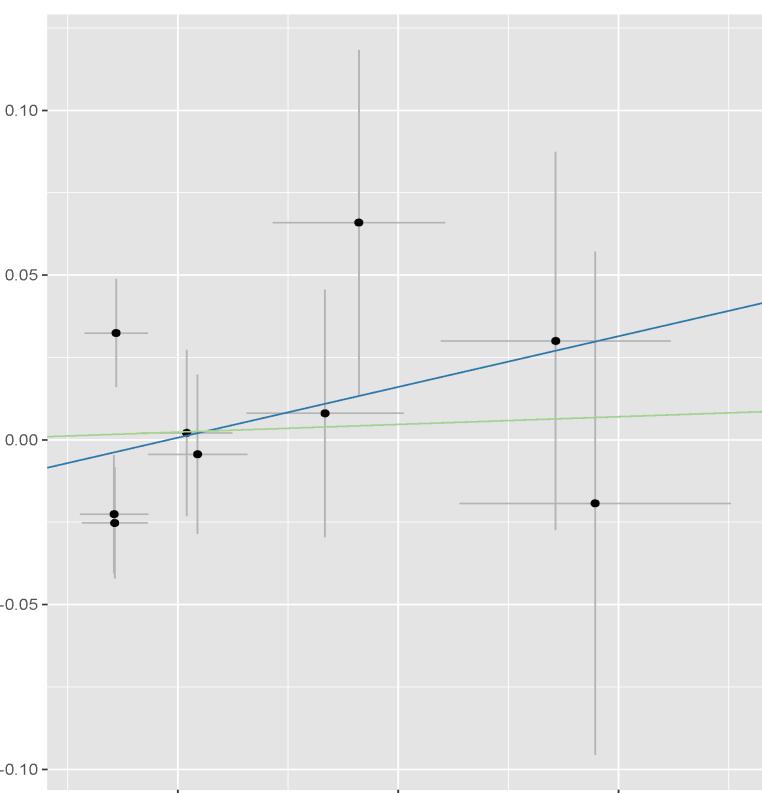

B

C

MR Test

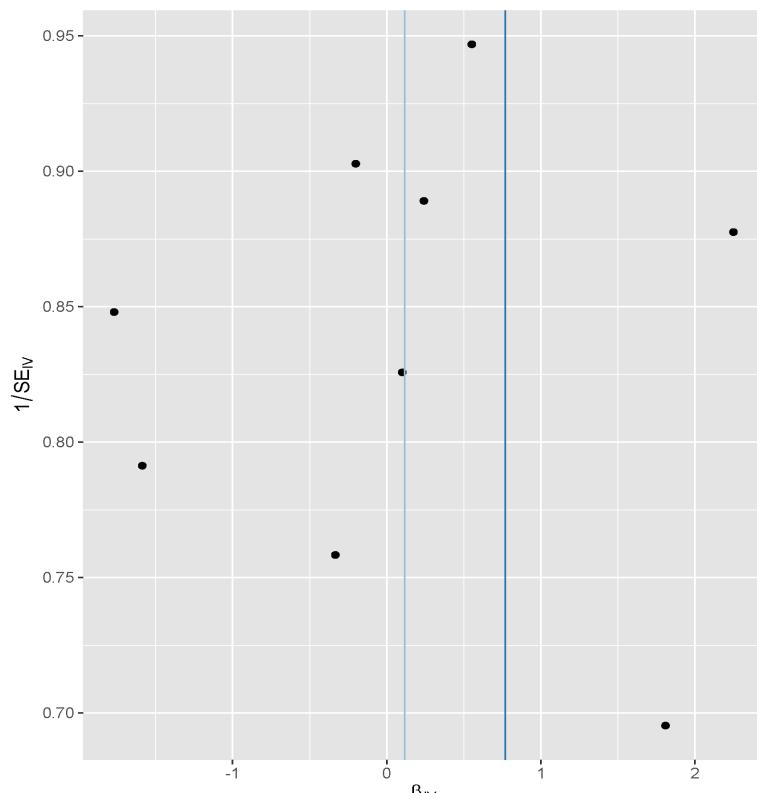

- Inverse variance weighted
- Weighted median
- MR Egger

D

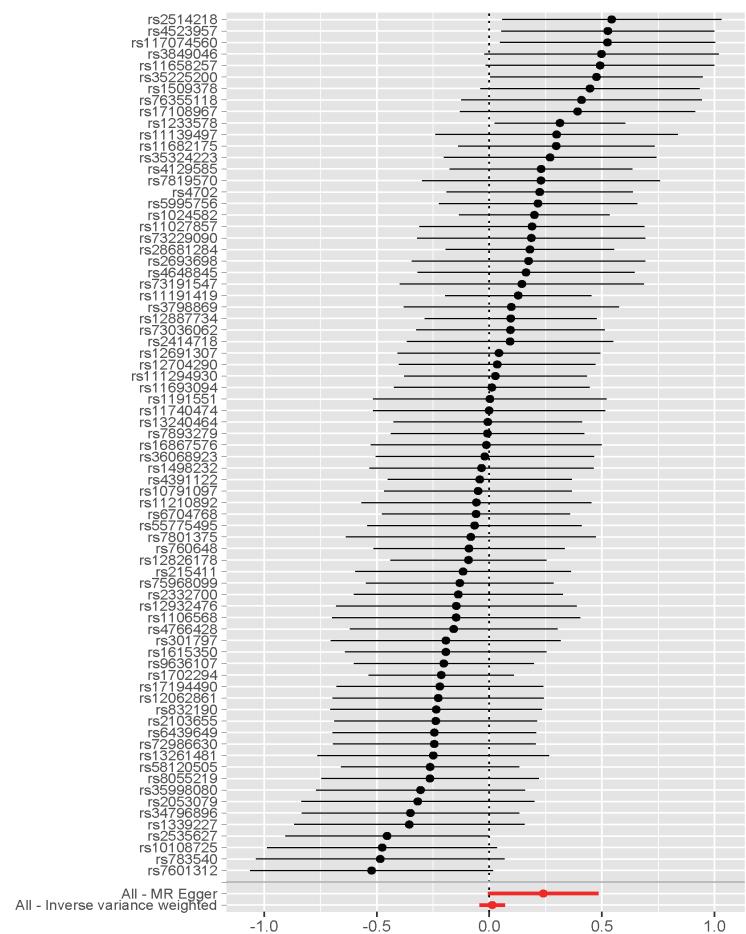

MR Method

- Inverse variance weighted
- MR Egger

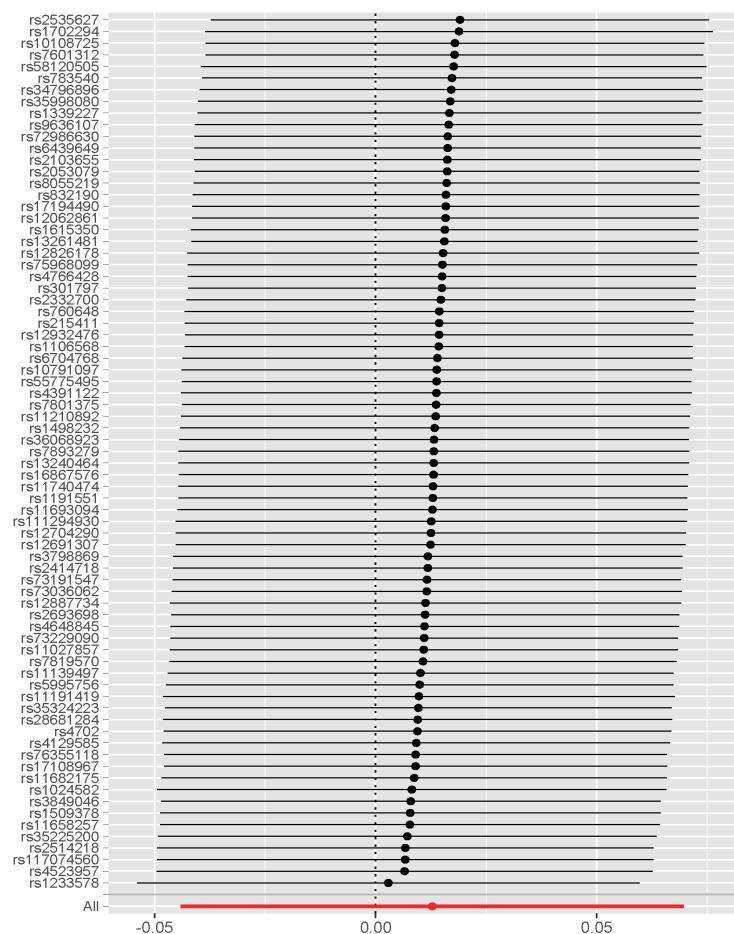

Supplementary Figure S2. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of schizophrenia on NAFLD.

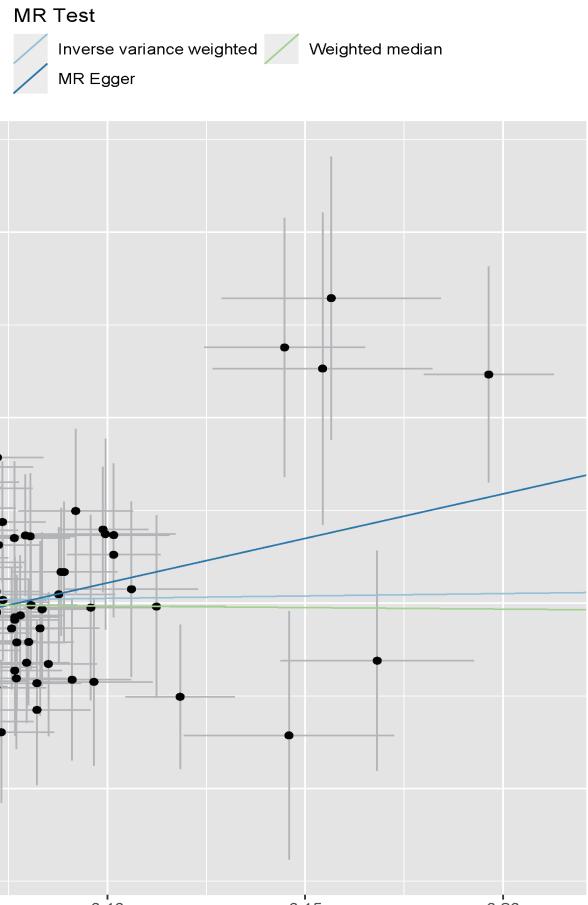

A

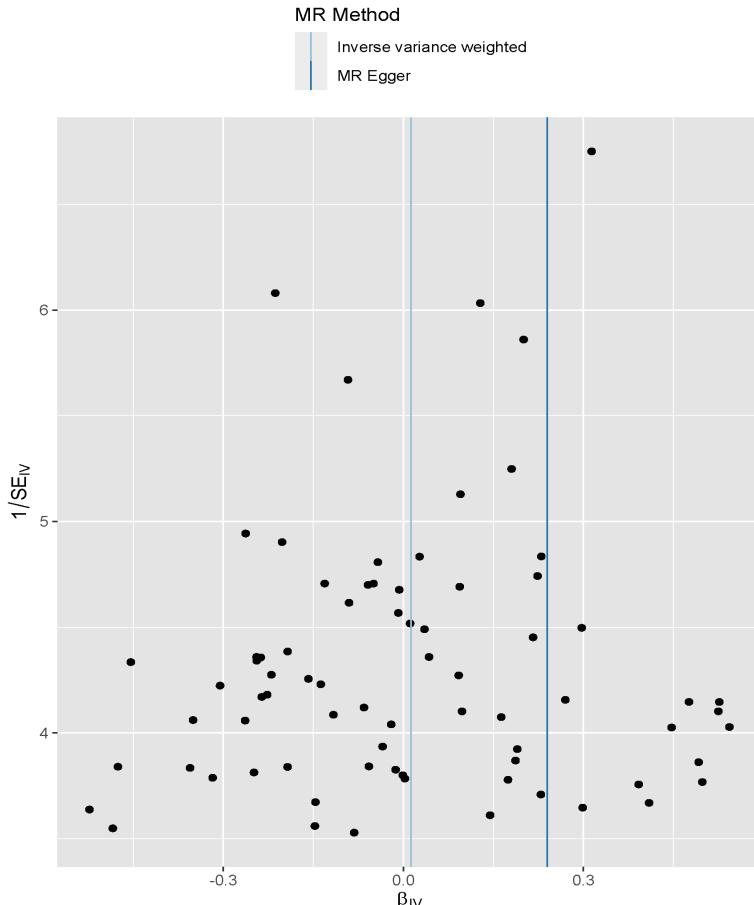

B

C

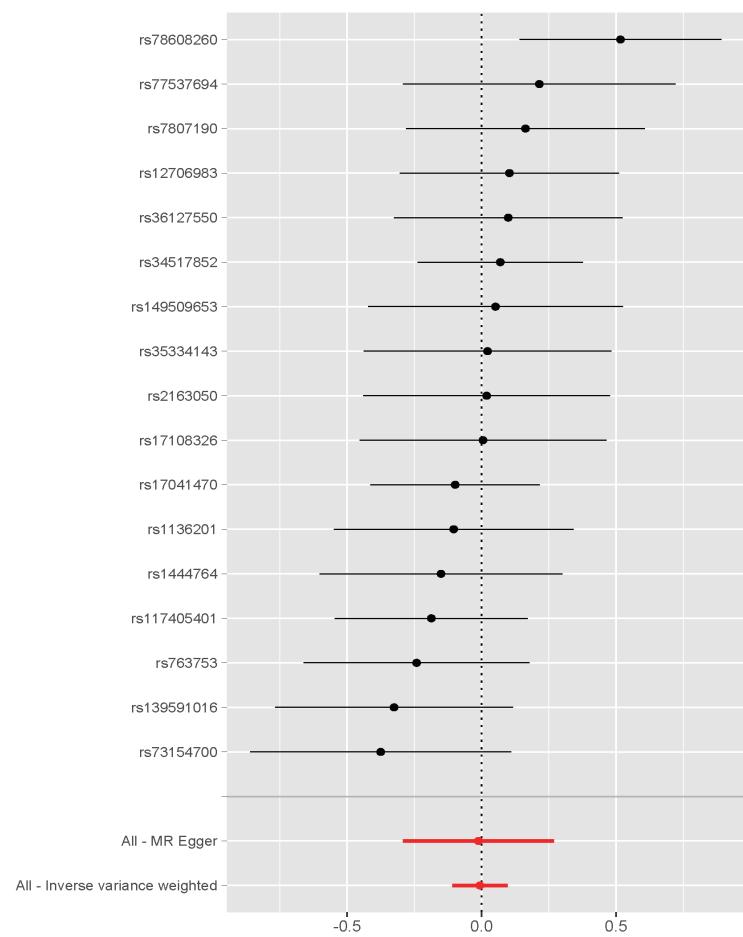

D

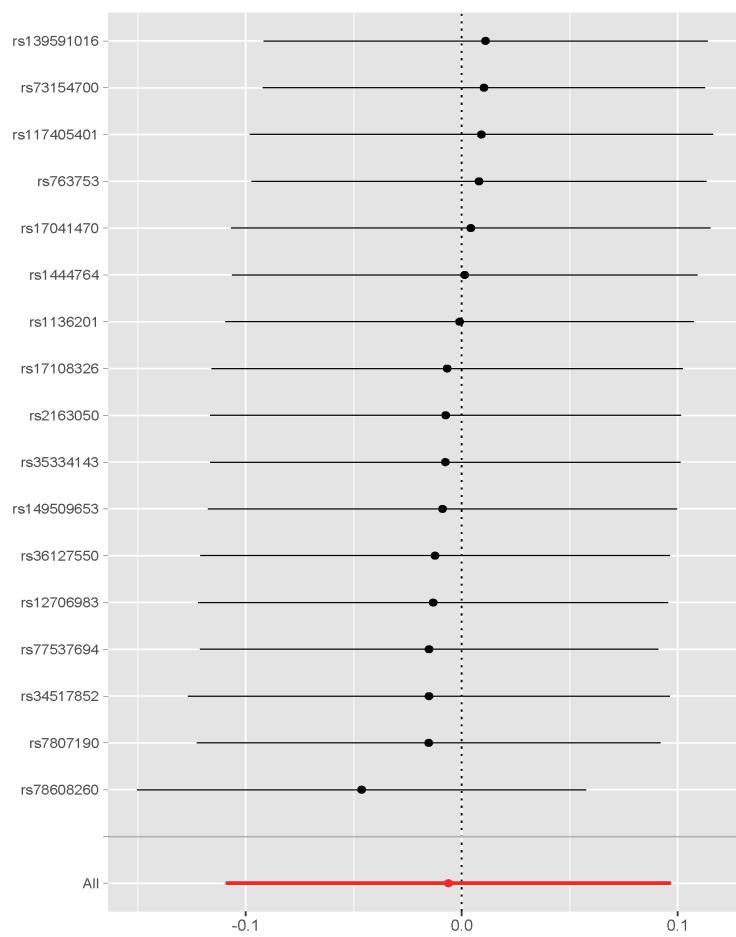

Supplementary Figure S3. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Post-traumatic stress disorder on NAFLD.

A

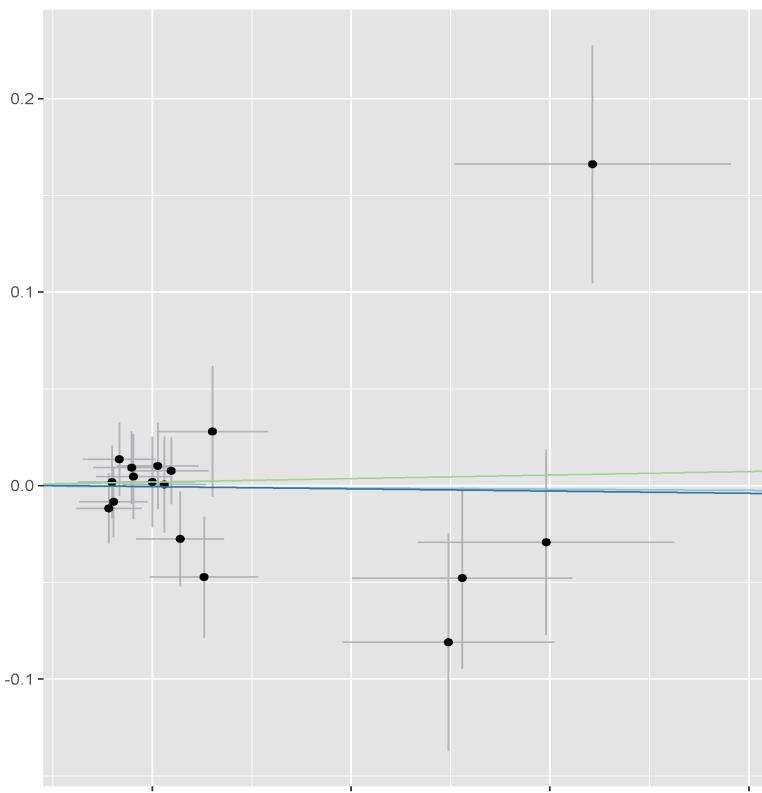

B

C

MR Test

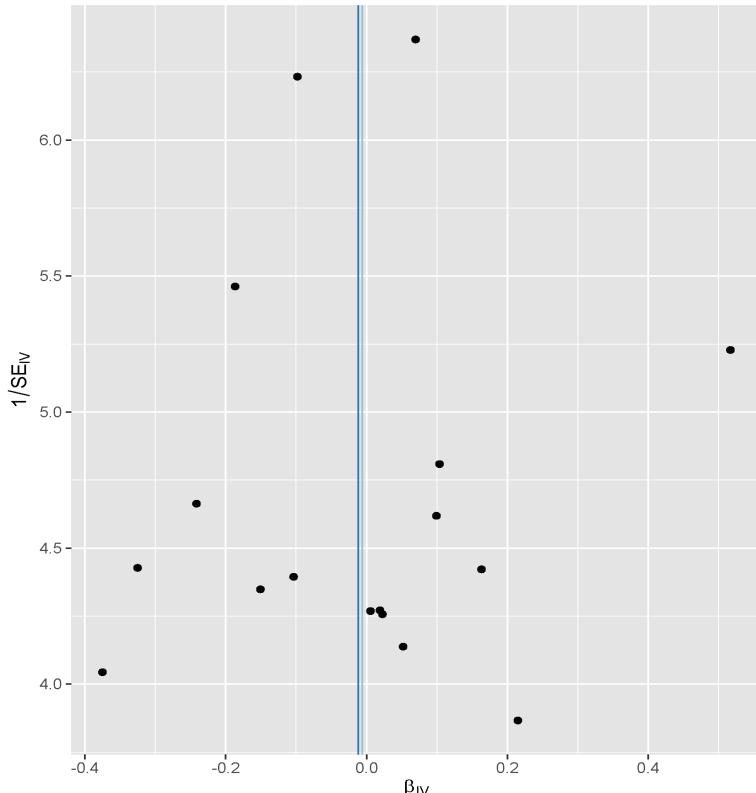

- Inverse variance weighted
- Weighted median
- MR Egger

D

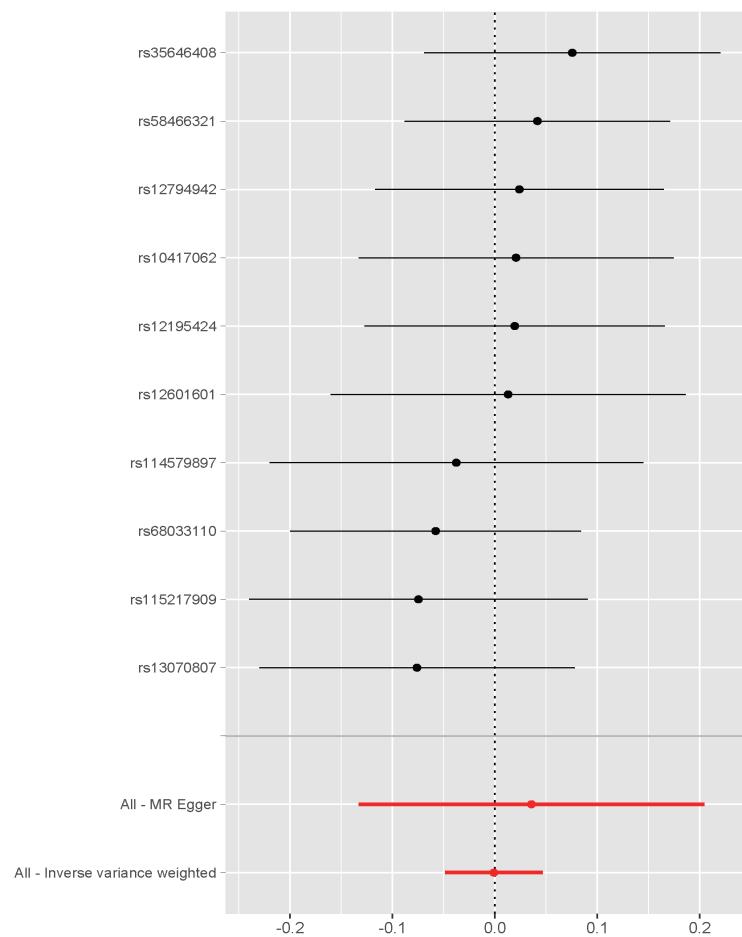

MR Method

- Inverse variance weighted
- MR Egger

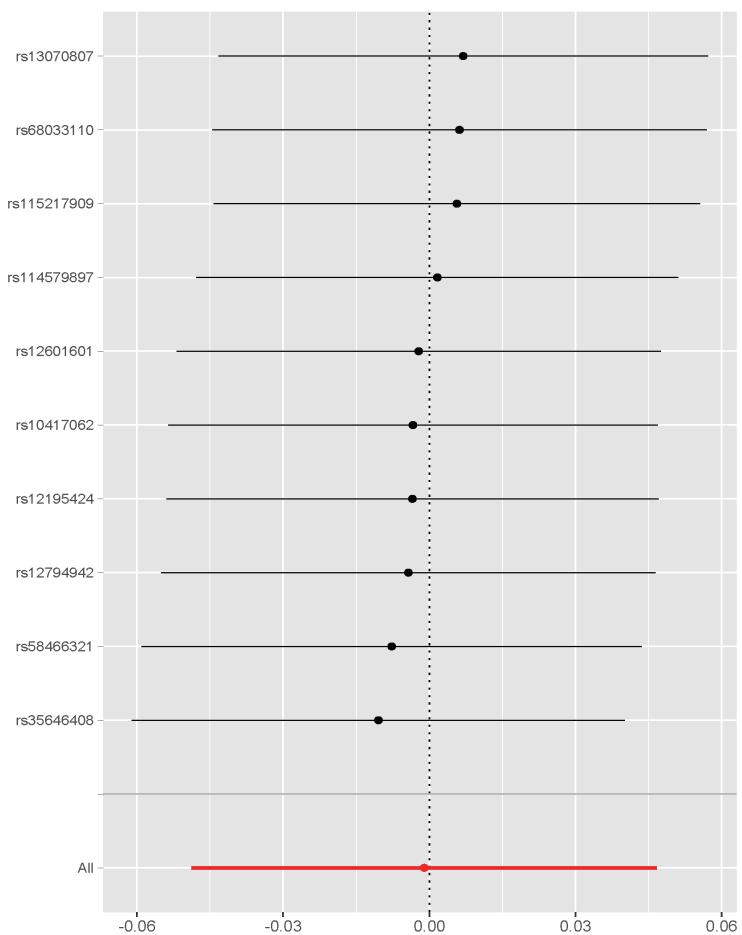

Supplementary Figure S4. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Obsessive-compulsive disorder on NAFLD.

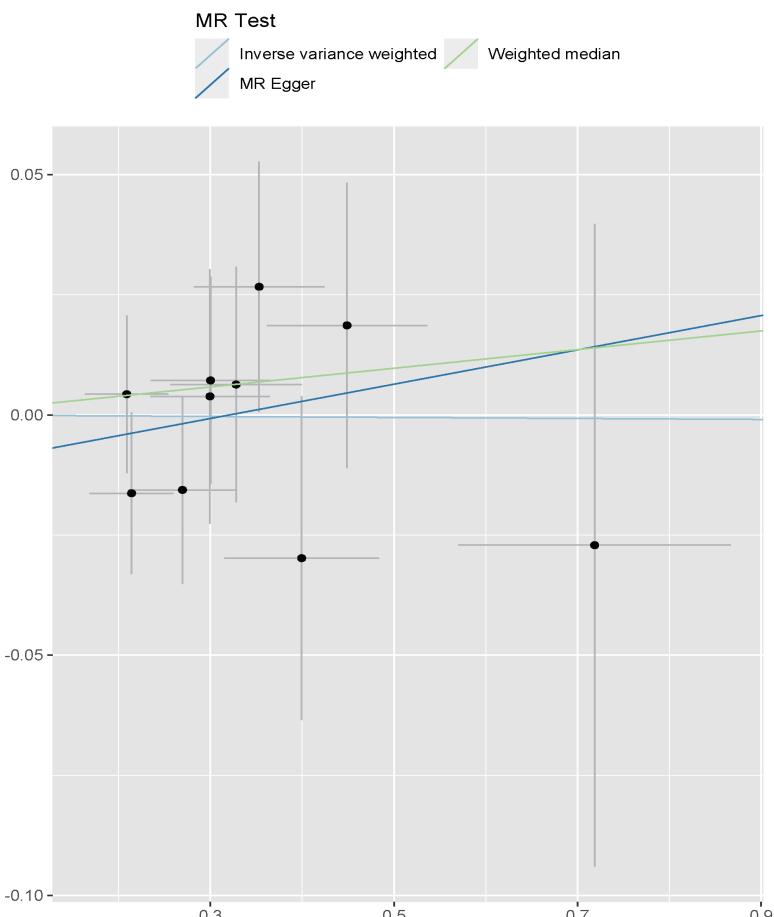

A

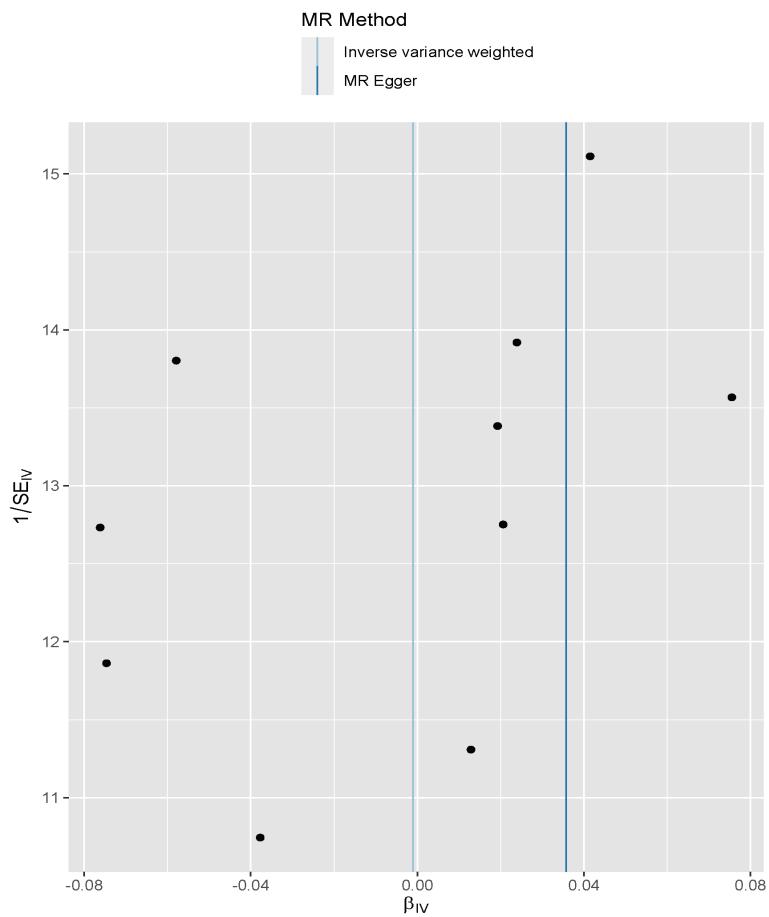

B

C

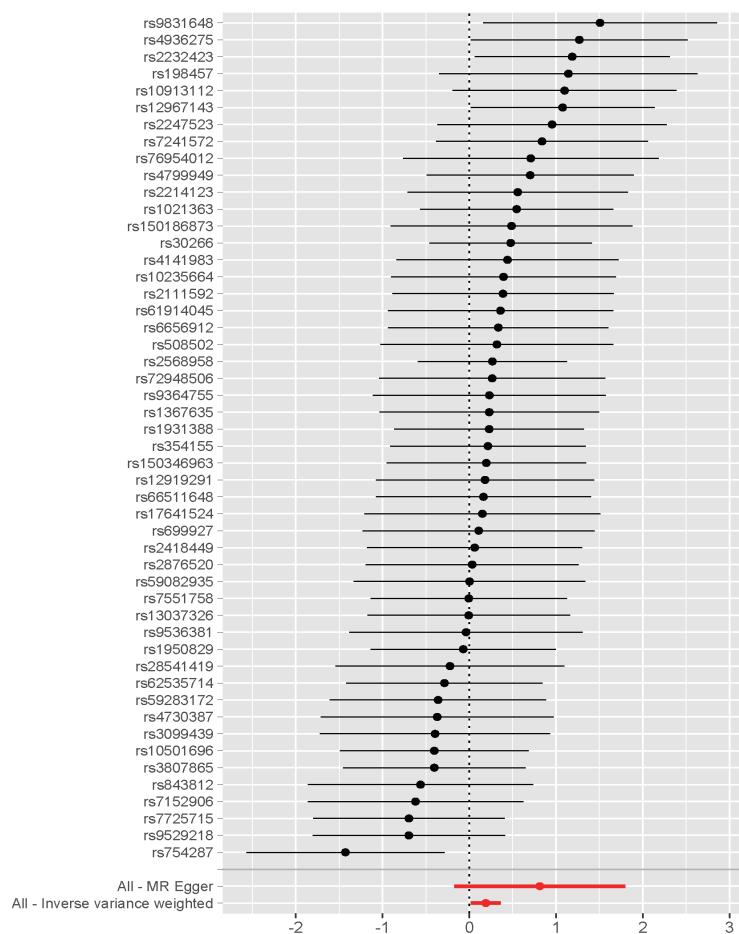

D

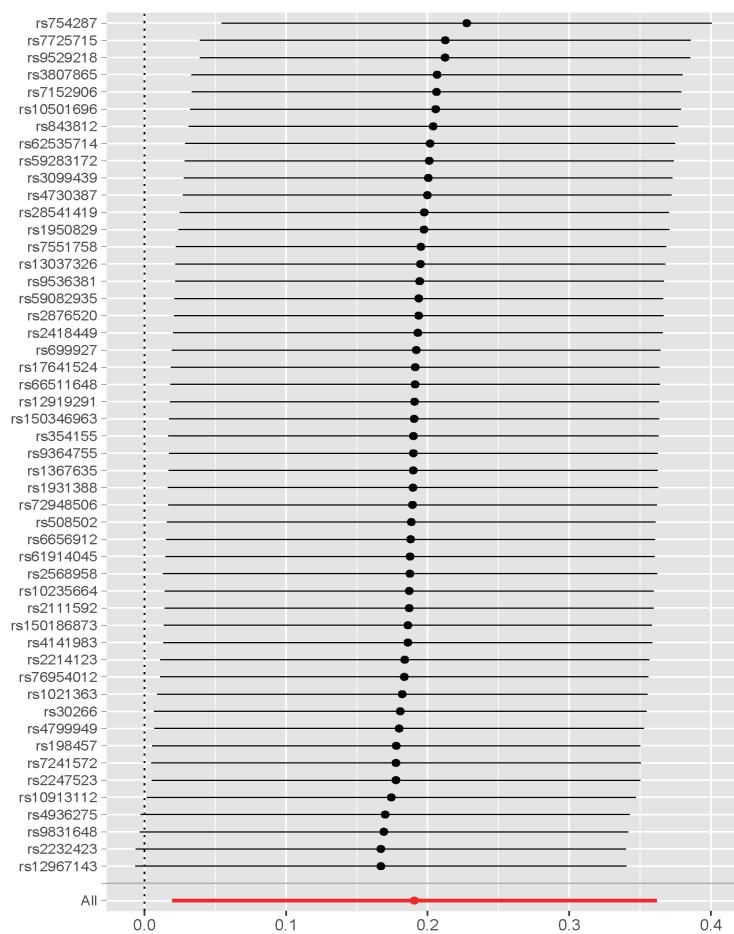

Supplementary Figure S5. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Major Depressive Disorder on NAFLD.

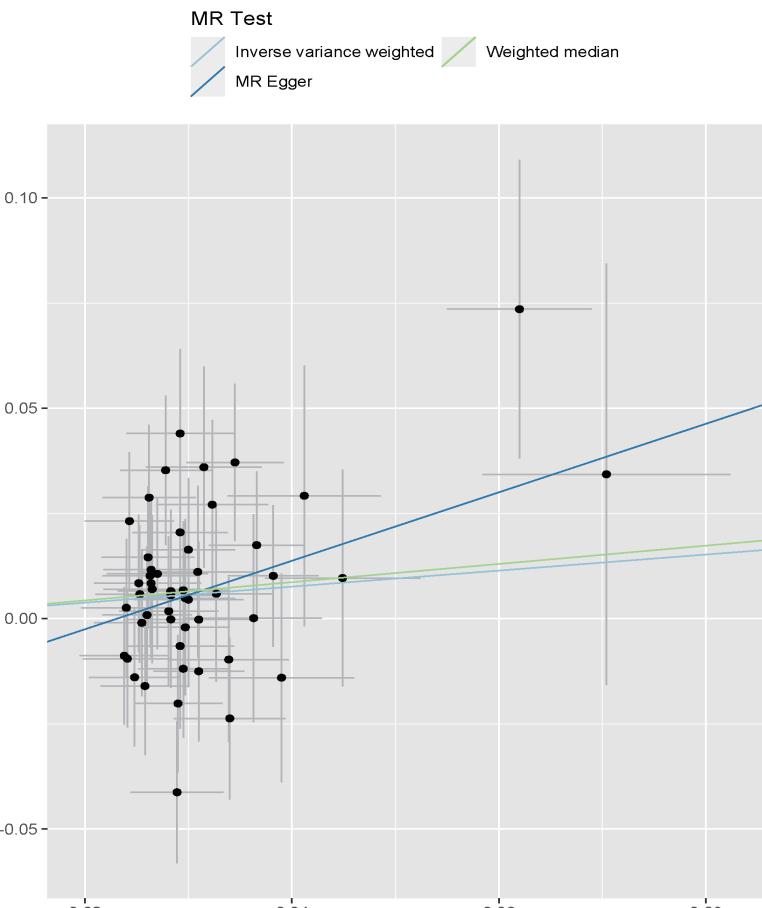

A

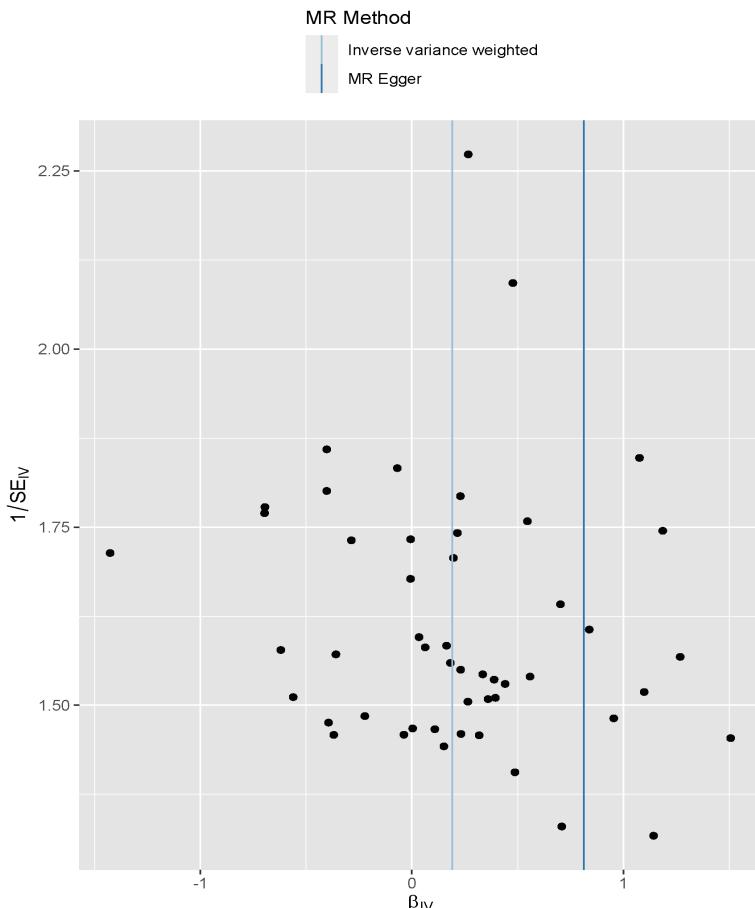

B

C

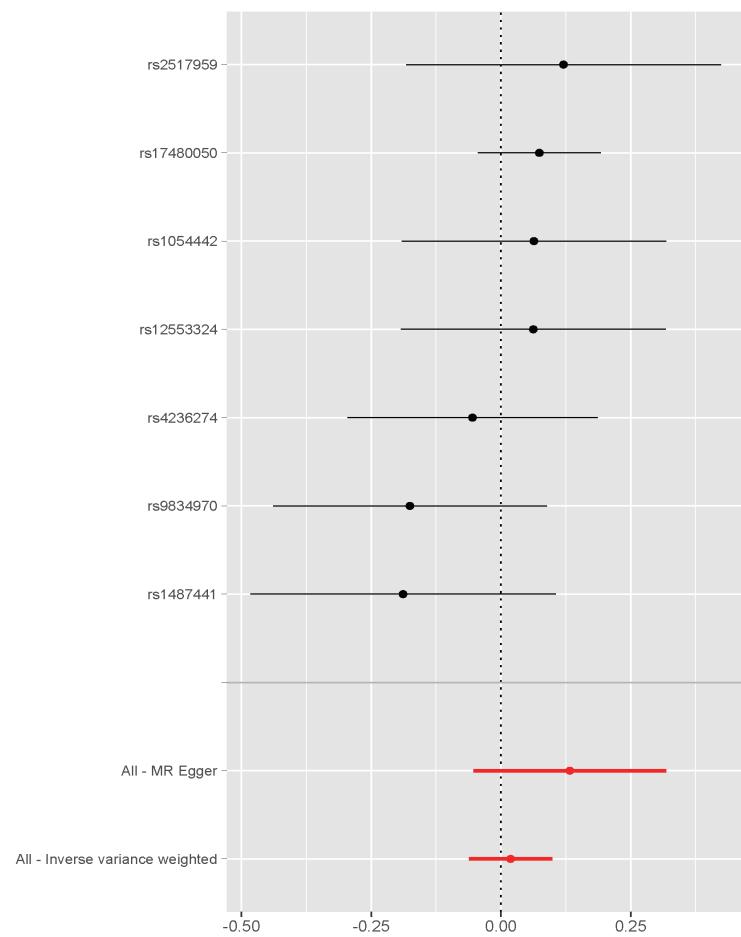

D

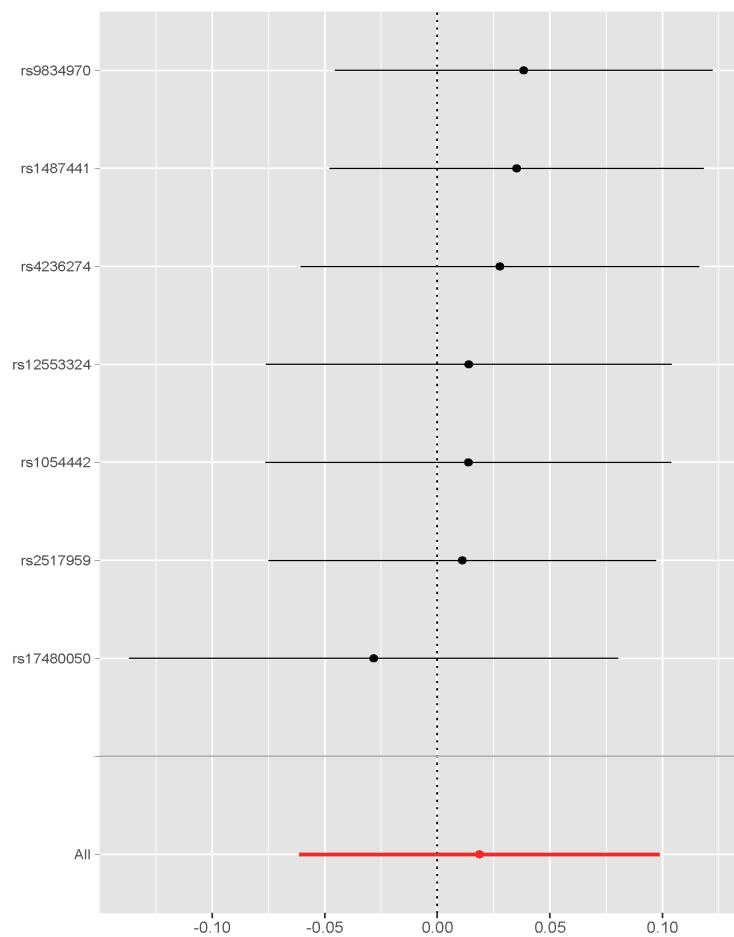

Supplementary Figure S6. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Bipolar disorder on NAFLD.

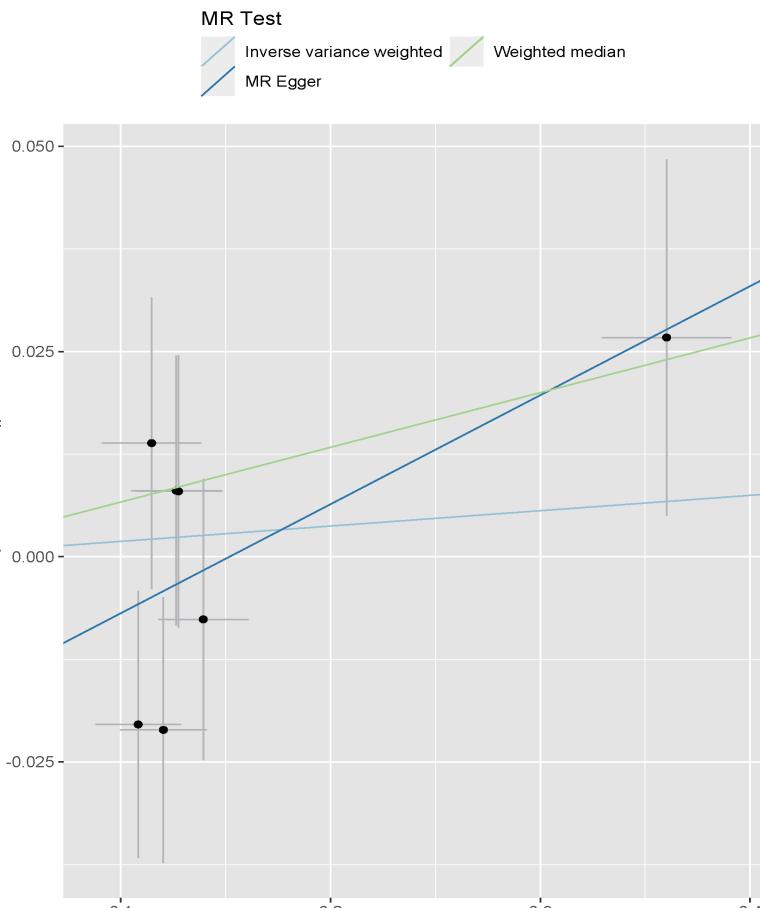

A

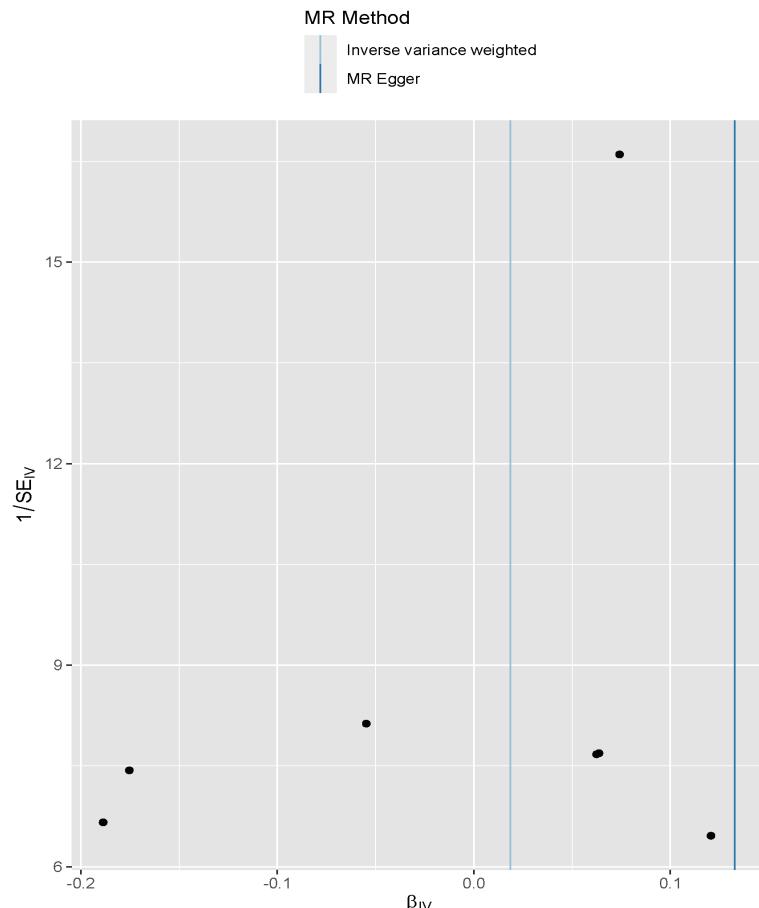

B

C

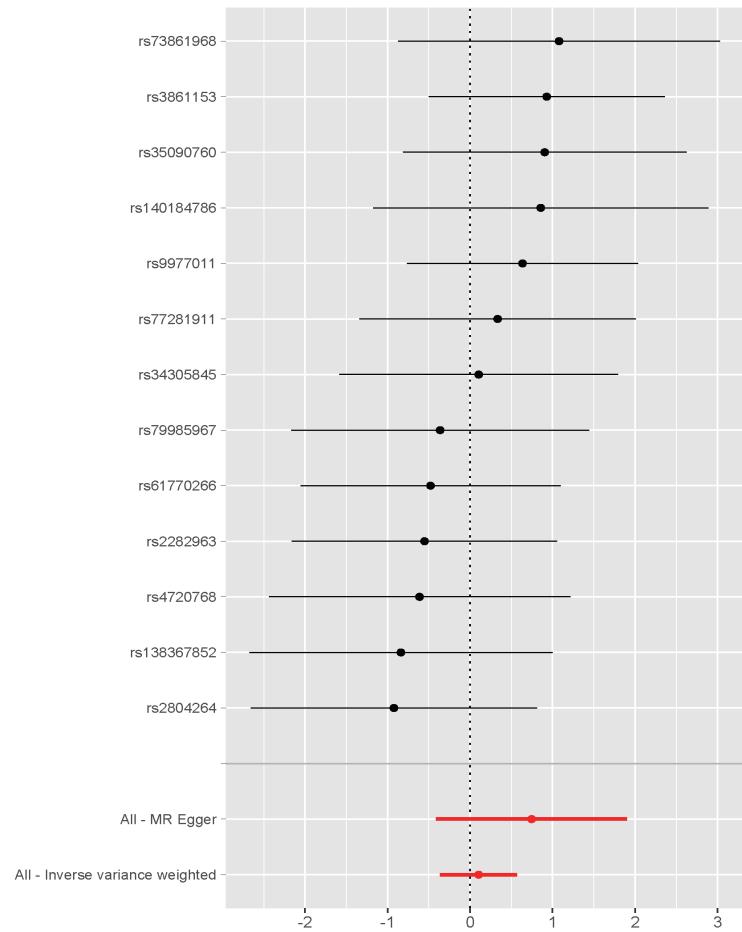

D

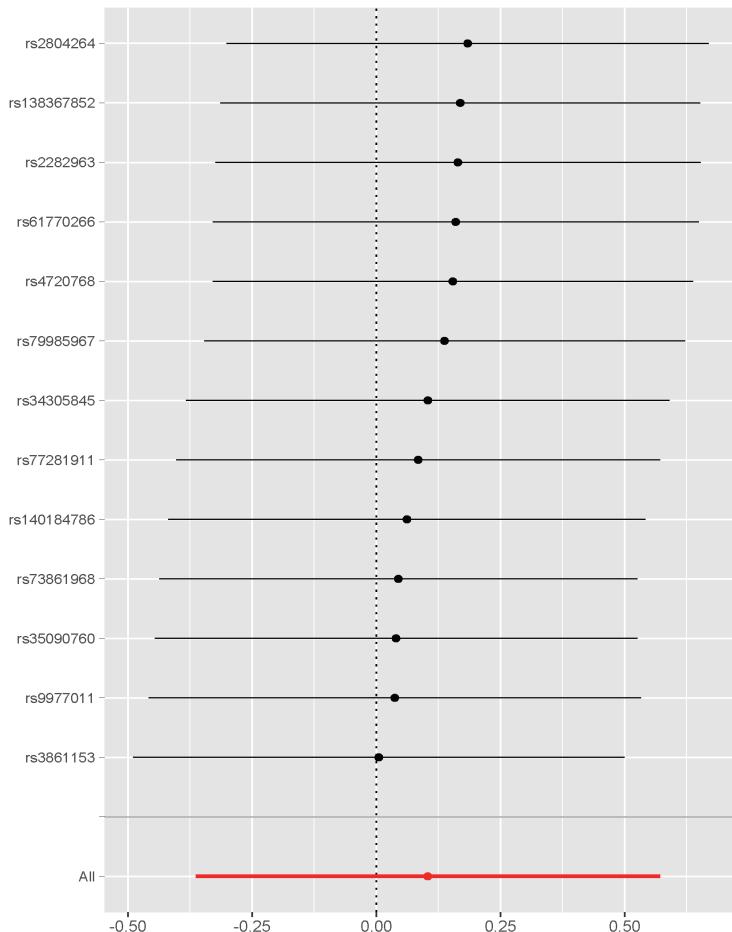

Supplementary Figure S7. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of mania on NAFLD.

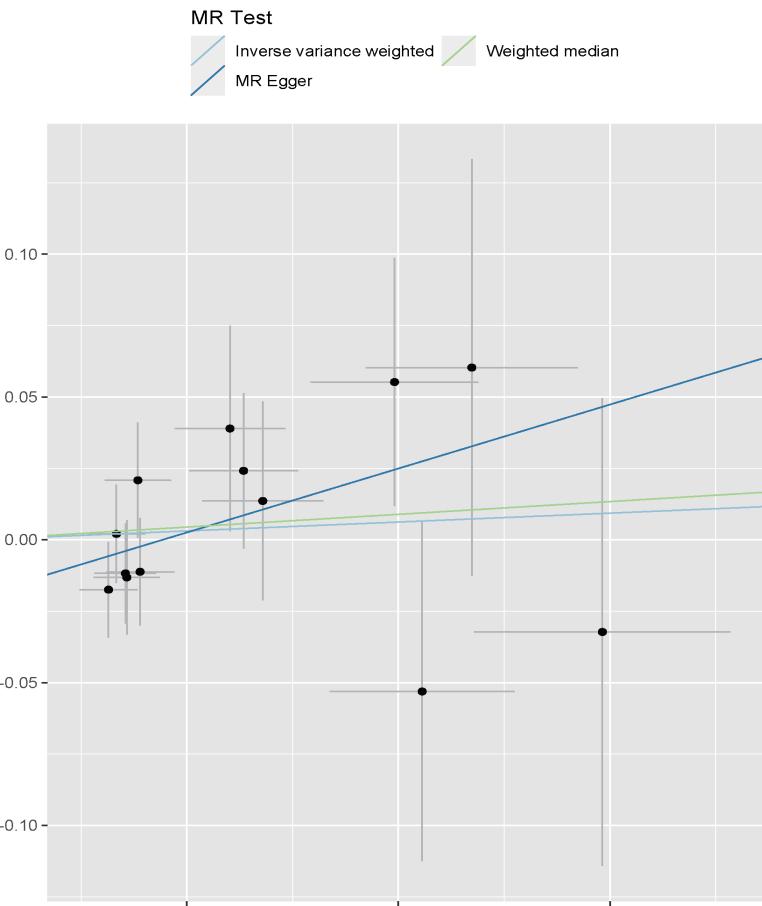

A

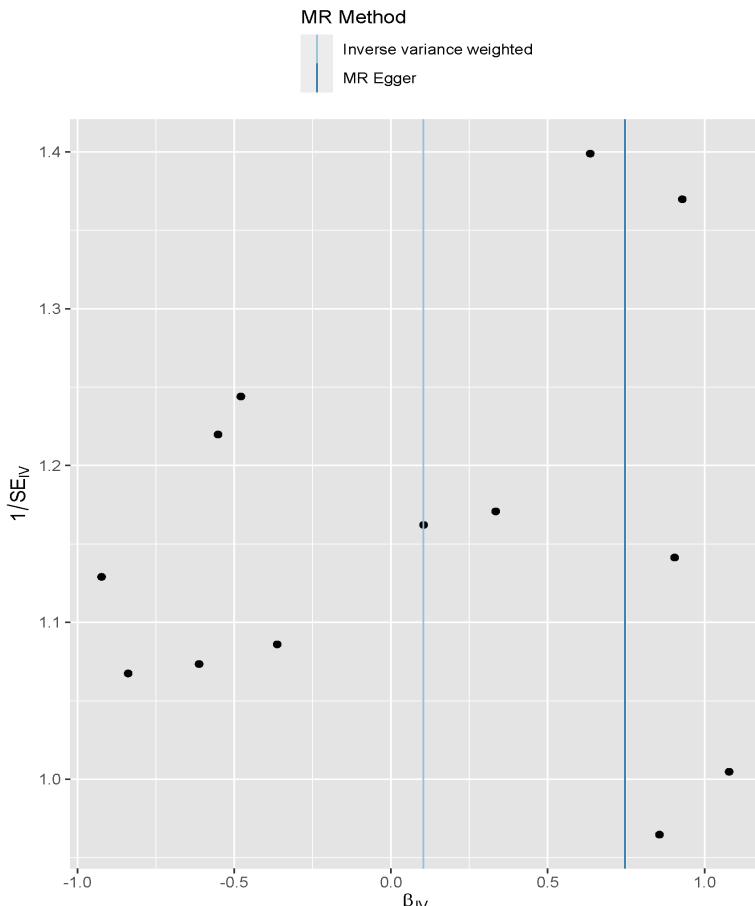

B

C

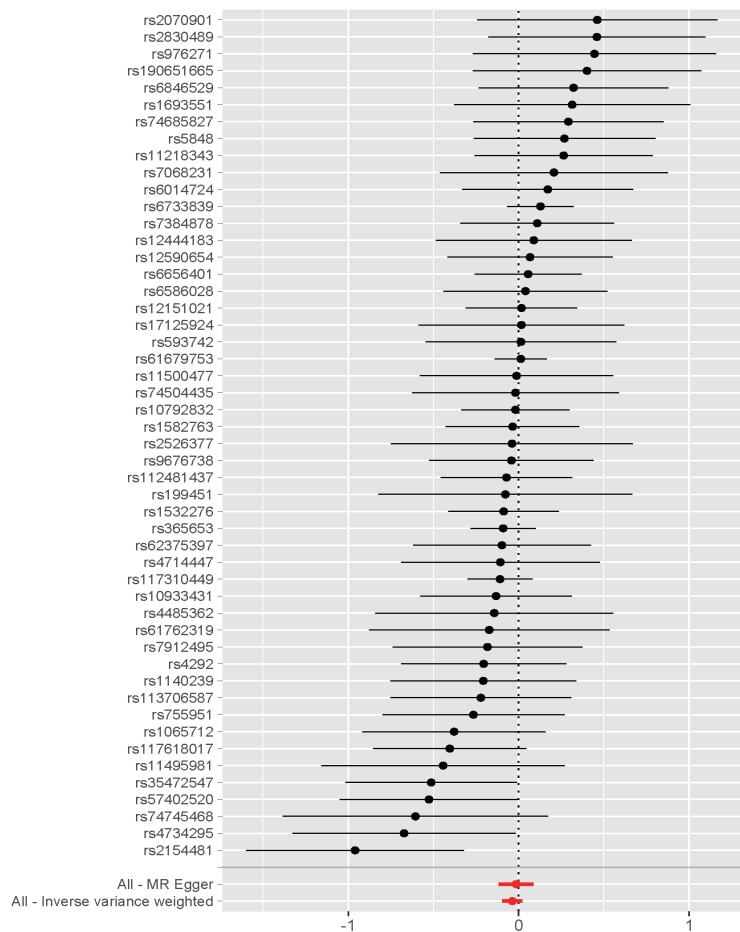

D

Supplementary Figure S8. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Alzheimer's disease on NAFLD.

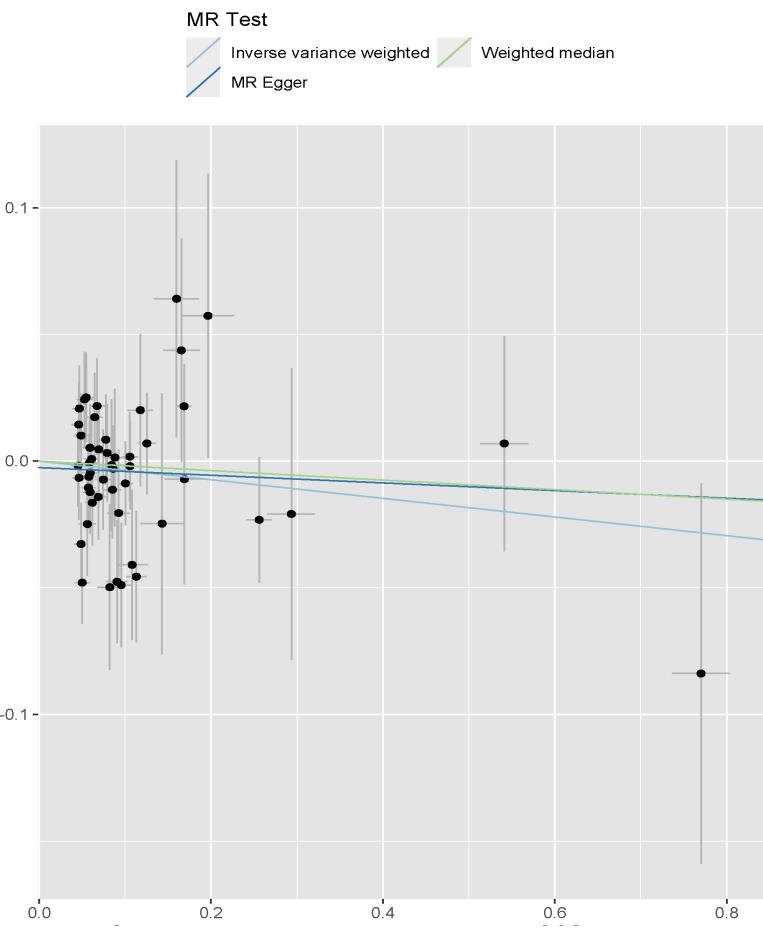

A

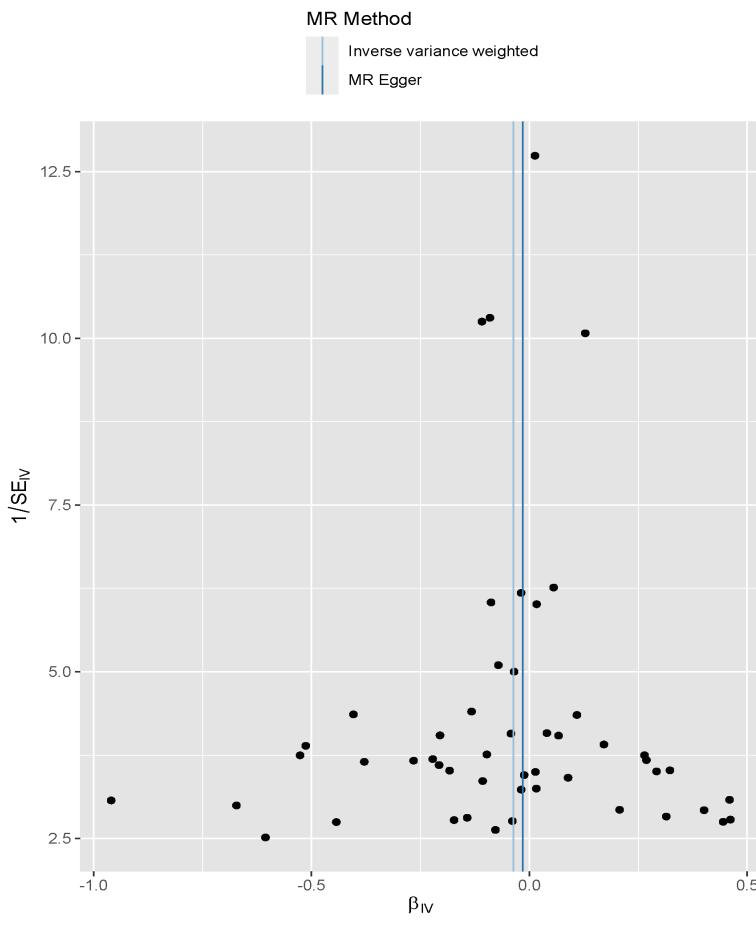

B

C

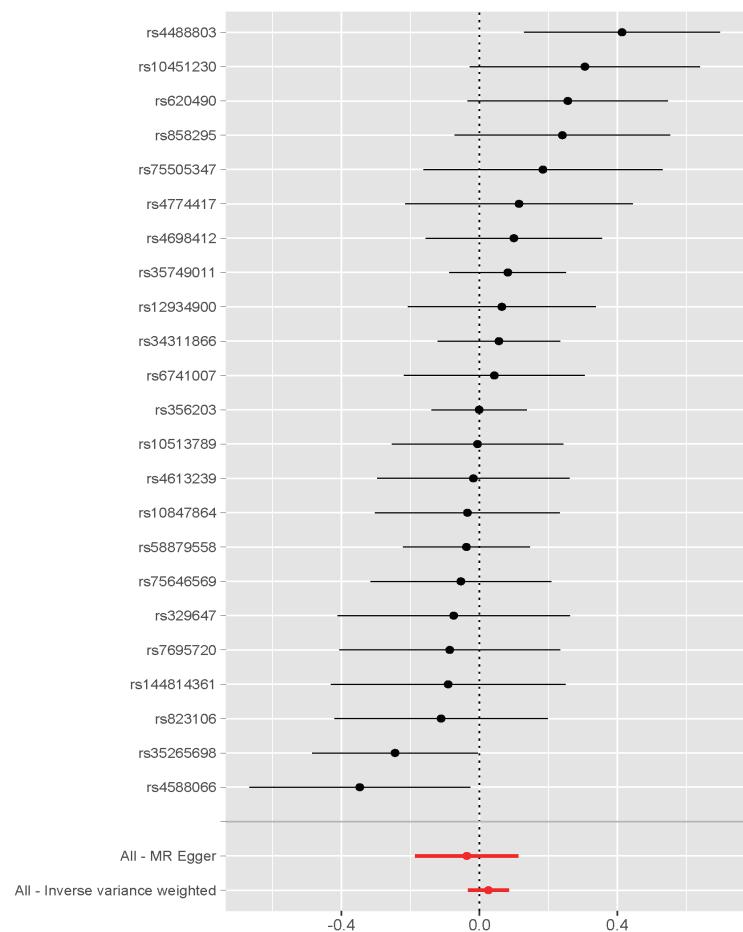

D

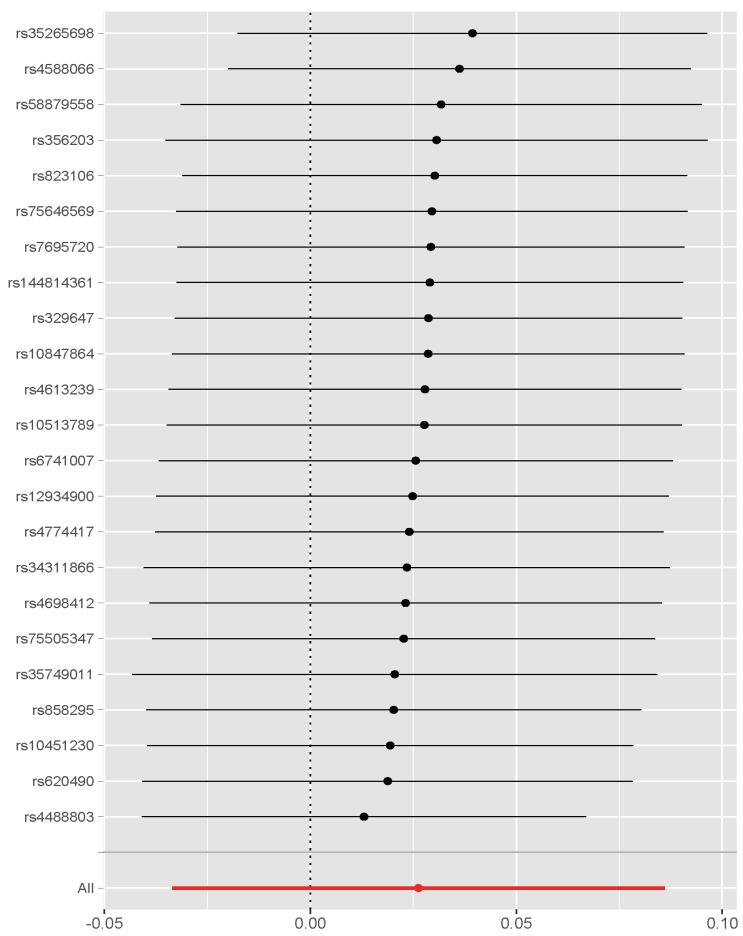

Supplementary Figure S9. Forest plot (A), Leave-one-out plot (B), scatter plot (C) and funnel plot (D) of the causal effect of Parkinson's disease on NAFLD.
