

Strata — High-risk — Low-risk

GSE116918

GSE70768

TCGA-PRAD

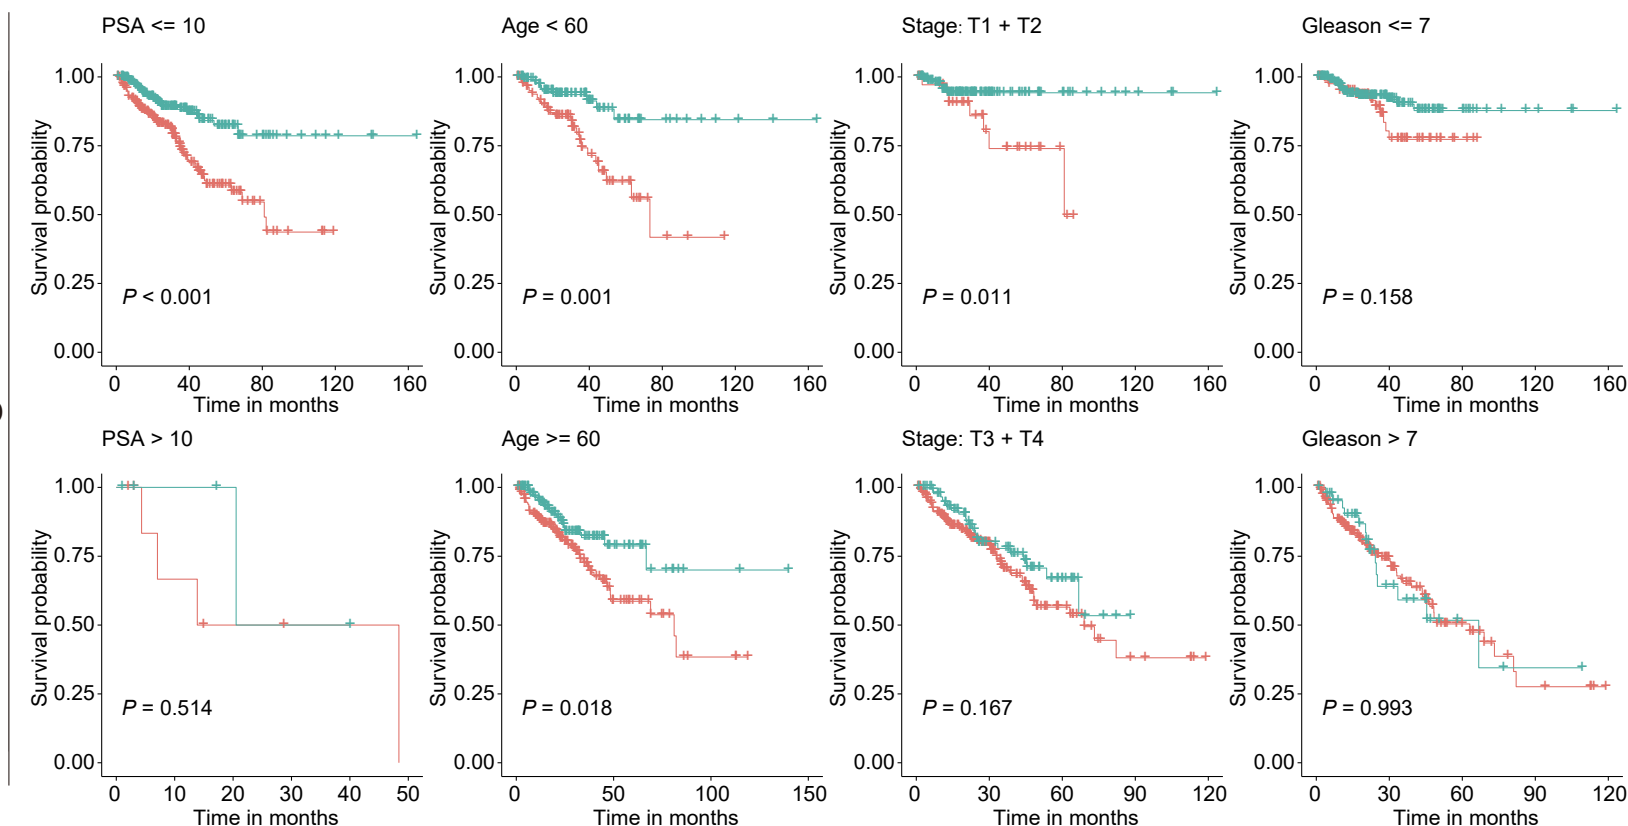

Figure S1. Kaplan-Meier analyses showed the usage of the eleven-consensus-gene-based classifier in different clinicopathological subgroups in GSE70768, TCGA-PRAD, and GSE116918 cohorts. Survival probability reflected the recurrence-free survival, P value obtained from the log-rank test.
