

Dear Editors,

On behalf of my co-authors, I am submitting the enclosed manuscript entitled " A combination treatment for Disseminated Nocardiosis by Linezolid, Amikacin, and Meropenem " for possible publication in the *Microbial Ecology*. We have participated sufficiently in the work to take public responsibility for the appropriateness of the experimental design and method, and the collection, analysis and interpretation of the data.

We declare that this paper is true, correct and new. All authors of this research paper have directly participated in the planning, execution, or analysis of the study, and all authors of this paper have read and approved the final version submitted. The contents of this manuscript have not been copyrighted or published previously, either completely or in part, or in another form or language. The contents of this manuscript are not now under consideration for publication elsewhere. This paper is a original work, so that all the authors have no conflict of interest. This study does not include experiments that using animal or human materials, and it is also not a clinical study, we just reported this rare case of infection, and we also have obtained the informed consent of the patient before the paper submit to the editorial office.

Thank you so much for your consideration!

Best Regards.

Sincerely yours,

Hui Liu
