

Supplement 2 (S2): Ethics-Policy-Reg GPOC Interviews and Supplementary Written Correspondence

For all UN member states (193+3) and organisations (n=18) at least two direct personal contacts were established. Often >3 contacts, in many cases up to 5 or 6 contacts. All their contact details are kept in an unofficial depot. In this archive the specific answers in the GPOC Interviews, and the answers of the GPOC Survey, of each individual state are kept. For privacy and integrity reasons these archival documents cannot be made public. 50 interviews were included in the series. Supplementary written email and LinkedIn correspondence has been kept for 100% of the below 214 entities. For some nations several conversations were carried out to also encompass states (USA, Australia, Canada) or regulatory agencies (Brazil, UK, USA). These have though been fused into one interview annotation (#1-50). Interviews with the EU, and specific regulatory bodies have not been included below, but have also been mirrored in article table 1. The total number of conversations is >100. Written correspondence per email or LinkedIn was carried out at least three times with all the 214 entities, both associated with the Survey and Summit invitations, but also when receiving supplementary information. Note the gender balance of 26 ♀ and 24 ♂. The GPOC Summit also had 50% distribution, which may mirror the GPOC Survey.
