

Supplement

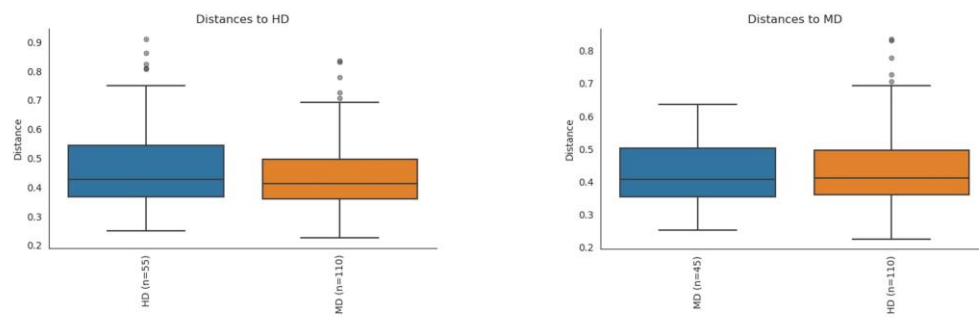

Supplement Figure legend

Supplement Figure 1. Measuring beta diversity distances between MD and HD. We did not obtain a significant finding between MD and HD in Jaccard, unweighted and weighted UniFrac distances.

C

Weighted UniFrac distance

Pairwise permanova results

		Sample size	Permutations	pseudo-F	p-value	q-value
Group 1	Group 2					
HD	MD	21	999	0.323543	0.973	0.973
