

Kortenbergh, July 2, 2020

Dear Sir, Madam

Study: S64219

Evaluating the potential of respiratory-sinus-arrhythmia biofeedback for reducing physiological stress in adolescents with autism: a randomized controlled study.

Our ref: EC2020-541

The ethics committee of UPC KU Leuven, partner of Z.Org.be, has examined this study closely and with care, in particular points 4°, 6° 7° of paragraph 4 of article 11 of the law of 7 May 2004.

1. The adequacy and completeness of the ICF: favorable advice.
2. The suitability of the center facilities: no comments: Favorable advice.
3. The competence of the researcher and his staff: Favorable advice.

The members of the ethics committee congratulate you on this research.

We would very much like to be kept informed of the results of this research.

Hoping to be of service to you, we greet you,

A handwritten signature in blue ink, appearing to read 'Ria Dhaeze', is written over a horizontal line.

Ria Dhaeze, ethics committee secretary

Commissioned by Prof. Dr. D. De Wachter, chairman ethics committee
