Please fully complete all sections. Use black ink and block capitals and provide each author's full name with the given name first followed by the family name.

(Complete Section 3, followed by Section 6.)**
In author collaborations where there is no formal agreement for representing the collaboration and **there are more than 10 authors**, one may sign for all, provided the signer appends correspondence that attests that each of the authors have agreed to the change **and the added/removed authors sign the form. (Complete Section 3, followed by Section 6.)**

- If you are not able to return a fully completed form within **30 days** of the date that it was sent to the author requesting the change, we may have to withdraw your manuscript. We cannot publish manuscripts where authorship has not been agreed by all authors (including those who have been removed).
- Incomplete forms will be rejected.
- Please return/upload this form, fully completed, to the Journals Editorial Office. Section 3: Please provide a justification for change. Please use this section to explain your reasons for changing the authorship of your manuscript, e.g. what necessitated the change in authorship? Please refer to the (journal) policy pages for more information about authorship. Please explain why omitted authors were not originally included and/or why authors were removed on the submitted manuscript.

After a thorough review of each author' s contributions during the manuscript revision process, we have determined that **Dr. Xiannan Meng** played a substantial role in the research, particularly in data analysis, experimental design and manuscript writing. **Dr. Xiannan Meng** was responsible for performing the critical analyses and interpreting the results. Therefore, we propose to update the authorship order to reflect their primary contribution. During the revision phase, extensive additional experiments were conducted to address the reviewers' comments, and **Dr. Xiannan Meng** led this supplementary work. Specifically, he was responsible for conducting In vitro study and integrating the findings into the manuscript. This critical role warrants an adjustment in authorship order, placing **Dr. Xiannan Meng** as the first author. Our original first author, Dr. Sen Meng, has recently transitioned out of the research team due to a change in institution. **Dr. Xiannan Meng** took over the responsibility for revising the manuscript, conducting necessary additional analyses, and finalizing the responses to the reviewers' comments. We therefore request an update in authorship to reflect the new structure of contribution. We would like to request the addition of **Dr. Hongjun Guo** as a co-corresponding author for this manuscript. **Dr. Hongjun Guo** has made significant contributions to the study, particularly in conceived of the study. Their expertise in tumor etiology was critical to the successful completion of this work. We believe that having **Dr. Hongjun Guo** as a co-corresponding author will facilitate effective communication and ensure the integrity of the research findings.

Section 4: Proposed new authorship. Please provide your new authorship list in the order you would like it to appear on the manuscript. Please indicate the corresponding author by adding (CA) behind the name. If the Corresponding Author has changed, please indicate the reason under section 3.
