Table S1. Description over recruitment process, illustrated in flowchart (Figure 1) in manuscript.

	Controlled hypertension n=4 102	Uncontrolled hypertension n=2 756	Treatment resistant hypertension n=757
Excluded before invitation			
Exclusion criteria			
Not registered with Primary health care center, n	26	33	16
Other type of hypertension than ICD-10 I10.9, n	3	2	3
Recent annual hypertension check-up, n	591	577	390
Not able to fill in questionnaire, n	20	19	4
Not able to visit PHCC, n	7	13	5
No diagnose of hypertension, n	1	1	
Age over 85 year, n	1		1
Other reasons			
Unknown address and/or telephone number, n	1	3	1
Invited	346	427	337
Not included after invitation			
Exclusion criteria			
Not registered with primary health care center, n	1	1	1
Other type of hypertension than ICD-10 I10.9, n			1
Recent annual hypertension check-up, n		2	
Not able to fill in questionnaire, n	3	4	8
Not able to visit PHCC, n	3	3	3
No diagnose of hypertension, n	3	2	
Declined			
Do not wish to participate, n (%)	147 (42.5)	199 (46.6)	125 (37.1)
No response - interpreted as not wishing to participate, n (%)	77 (22.3)	98 (22.9)	115 (34.1)
Other reasons			
Study full, n	13	16	3
Unknown address and/or telephone number, n	2	5	5
Total not included after invitation, n (%)	249 (72)	330 (77)	261 (77)
Included, n	97	97	76
Drop out, n	1	2	2

Controlled hypertension <140/<90 mmHg, uncontrolled hypertension ≥140/≥90 mmHg, and treatment resistant hypertension ≥140/≥90 mmHg with at least three antihypertensive drugs regardless of class.
