## A. Survey questions

The survey questions are either *binary* (yes/no) or on a *Likert scale* (to a very small extent/to a small extent/to some extent/to a large extent/to a very large extent). This is indicated at the end of each question.

1. In which areas and to what extent do you think participation in the project will be useful in terms of the municipality's further work with climate adaptation? (Likert scale)
  - a. Political anchoring
  - b. Descriptions of responsibilities and tasks
  - c. Cooperation
  - d. New routines in planning
  - e. New knowledge and competence
2. To what extent do you think participation in the project will contribute to cooperation on climate adaptation in your municipality? (Likert scale)
  - a. Residents
  - b. Local businesses
  - c. Researchers and consultants
  - d. Other state administrative bodies
  - e. County governor
  - f. County council
  - g. Other municipalities
  - h. Internally
3. To what extent do you think the project can be useful for other types of municipalities? (Likert scale)
  - a. Small
  - b. Low maturity on CCA
  - c. Different types of climate risks

---

<sup>1</sup> Corresponding author

- d. Medium-sized
  - e. High maturity on CCA
  - f. Large
4. To what extent do you think the collaboration form worked in the project? (Likert scale)
    - a. Cooperation with others in the workshops
    - b. Communication with the research group
    - c. Internal collaboration
    - d. Homework
    - e. Digital workshops
    - f. Physical workshop
  5. Has the project contributed to a change in methods of working and collaboration in the municipality? (binary)
  6. Will your municipality use indicators in the work on CCA going forward? (binary)
  7. Have your expectations for the project been met? (binary)

## B. Supplementary Data

The full evolution of the indicator set from Set O to Set V is shown in the Supplementary Data Excel file.
