

## CARE guidelines for case reports: 13-item checklist

Please indicate in which section each item has been reported in your manuscript. If you feel that an item does not apply to your manuscript, please enter N/A.

For more information about the CARE guidelines, please see <http://www.care-statement.org/>.

No.	Description	Section #
<b>Title</b>		
1	The area of focus and “case report” should appear in the title	
<b>Keywords</b>		
2	Two to five key words that identify topics covered in this case report	
<b>Abstract</b>		
3a	Introduction—What is unique about this case? What does it add to the medical literature?	
3b	The main symptoms of the patient and the important clinical findings	
3c	The main diagnoses, therapeutics interventions, and outcomes	
3d	Conclusion—What are the main ‘take-away’ lessons from this case?	
<b>Introduction</b>		
4	Briefly summarize why this case is unique with medical literature references	
<b>Patient information</b>		
5a	De-identified demographic information and other patient specific information	
5b	Main concerns and symptoms of the patient	
5c	Medical, family, and psychosocial history including relevant genetic information	
5d	Relevant past interventions and their outcomes	
<b>Clinical findings</b>		
6	Describe the relevant physical examination (PE) and other clinical findings	
<b>Timeline</b>		
7	A timeline of relevant information from the patient’s history and this episode of care	
<b>Diagnostics assessment</b>		
8a	Diagnostic methods (such as PE, laboratory testing, imaging, surveys)	
8b	Diagnostic challenges (such as access, financial, or cultural)	
8c	Diagnostic reasoning including a differential diagnosis	
8d	Prognostic characteristics (such as staging in oncology) where applicable	
<b>Therapeutic intervention</b>		
9a	Types of intervention (such as pharmacologic, surgical, preventive, self-care)	
9b	Administration of intervention (such as dosage, strength, duration)	
9c	Changes in intervention with rationale	
<b>Follow-up and outcomes</b>		
10a	Clinician and patient-assessed outcomes when appropriate	
10b	Important follow-up diagnostic and other test results	
10c	Intervention adherence and tolerability (how was this assessed?)	
10d	Adverse and unanticipated events	
<b>Discussion</b>		
11a	Discussion of the strengths and limitations in your approach to this case	
11b	Discussion of the relevant medical literature	
11c	The rationale for conclusions (including assessment of possible causes)	
11d	The primary “take-away” lessons of this case report	
<b>Patient perspective</b>		

12	When appropriate, the patient can share their perspective on their case	
<b>Informed consent</b>		
13	The patient should give informed consent	

**When submitting your manuscript via the online submission form, please upload the completed checklist as a Figure/supplementary file.**

**If you would like this checklist to be included alongside your article, we ask that you upload the completed checklist to an online repository and include the guideline type, name of the repository, DOI and license in the *Data availability* section of your manuscript.**
