

## **QUESTIONNAIRE**

### **Study Title: Knowledge, Perception, and Preventive Practices of Lassa Fever Among Mothers of Under-Five Children in an Endemic Community in Edo State, Nigeria**

#### **Instructions for Completing the Questionnaire**

Dear Participant,

Thank you for agreeing to participate in this study on the knowledge, perception, and preventive practices of Lassa fever. The information you provide will help us better understand and address public health challenges in your community.

Please follow these instructions while completing the questionnaire:

1. Read each question carefully before answering.
2. For questions with multiple-choice answers, select the option(s) that best represent your response by marking the corresponding box ([ ]).
3. For questions requiring written answers, provide clear and concise responses in the space provided.
4. If you do not understand a question or need clarification, feel free to ask the interviewer.
5. There are no right or wrong answers; please respond honestly based on your knowledge and practices.
6. Your responses will remain confidential and will only be used for research purposes.

Estimated Time to Complete the Questionnaire: 15–20 minutes

Thank you for your time and cooperation.

## **SECTION A: Demographic Information**
