

Supp. Figure 1: Highlights of the Horseshoe Crab Conservation Campaign. A and B show the inauguration ceremony, while C and D illustrate a survey of 235 respondents conducted across rescue stations. E highlights engagement with fisherfolk, students, and volunteers (N=120) participating in community-based conservation efforts. Panel F depicts a beach cleaning event conducted at Chandipur Beach during the non-monsoon season, and Panel G shows a horseshoe crab entangled in a fishing net, emphasizing the threats faced by the species.
