

Table 1. Mean and standard error in pain intensity ratings.

Priming conditions	Attractiveness conditions	Stimulus conditions	Mean	Standard error
attractive model	attractive presented model	non-painful	1.38	0.06
		painful	2.84	0.14
	unattractive presented model	non-painful	1.59	0.08
		painful	2.98	0.11
unattractive model	attractive presented model	non-painful	1.34	0.05
		painful	2.82	0.14
	unattractive presented model	non-painful	1.55	0.07
		painful	3.10	0.11
