

Survey Questionnaire: Human-Wildlife Interactions in Hunza Highlands

(Community-Based Conservation & Climate Change Study)

Section 1: Participant Information

1. Village/Location: _____
2. Age group:
☐ 18-30 ☐ 31-45 ☐ 46-60 ☐ 60+
3. Primary occupation:
☐ Farming ☐ Livestock herding ☐ Tourism ☐ Other: _____

Section 2: Wildlife Observations

4. Have you noticed changes in these species' populations over the past 10 years?

Species	Increased	Decreased	No Change	Don't Know
Himalayan Ibex	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Snow Leopard	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Marco Polo Sheep	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

5. How often do you encounter wildlife near your village?
☐ Daily ☐ Weekly ☐ Monthly ☐ Rarely

Section 3: Human-Wildlife Conflict

6. Have you experienced conflicts with wildlife in the past 2 years?
☐ Yes (describe: _____) ☐ No
7. What type of conflict? (Check all that apply)
☐ Livestock predation ☐ Crop damage ☐ Property damage ☐ Other: _____

Section 4: Climate Change Perceptions

8. Have you observed these climate-related changes?

Change	Yes	No
Later snowfall	<input type="checkbox"/>	<input type="checkbox"/>
Unpredictable rainfall	<input type="checkbox"/>	<input type="checkbox"/>
Glacier retreat	<input type="checkbox"/>	<input type="checkbox"/>

Section 5: Conservation Feedback

9. Do community conservation programs (e.g., KVO/SKIDO) help protect wildlife?

☐ Strongly agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly disagree

10. Suggestions for improvement: _____
